I found this because I could not find the two cats knock knock link anymore. And I like it better

This is perfect if you know a friend who plays games or talks on skype a lot with you and you want to get him in a video call while he is wearing headphones chatting send him this link [CLICK HERE](#)

If you manage to capture them getting scared post here so we can see it thanks.

Here is a video of a guy I got with the two cats one. I had some of this one but I forgot to enable sound so I didnt upload them. =(

I remember when someone posted this a while ago, I tried to trick some of my friends but they saw right through it when they realized they couldn't hear someone knocking through their headset lol.

Yeah that's why they have to be wearing a headset which is why in a skype call would be great

If anyone is interested I am going to be selling this site for \$40 just because I am done with it lol. It currently gets over 8k unique visitors a day from its nature and could be used to make some decent money. siteprice.org says its worth \$155 as of now.

You will just see an image of a guy in a mask but if your wearing headphones it will sound like someone is knocking on door/window, something and then there will be a couple of gunshots in front of you lol
