Just a warning. Avoid any kind of deals with this user, he's a low life scammer.

Quote:DDOS for Hire

DDOS for Hire services will not be allowed for HF discussion. Due to confusion between legitimate load testing services and illegal ddos attack services. So we will no longer allow any content related to SST services, ddos for hire, or ddos attacking of websites.

LegitRetard - February 3, 2017, 12:03 pm

This is no ddos service Nazgul

Baitable - February 3, 2017, 1:20 pm

HUGE Vouch for this, I have been using this for a while and the stability is absolutely amazing!
And spreading with this using my method is awesome, the bots connect very easily and are easy to control as a herd!

Thanks for the vouch copy, I appreciate it~!
