I Will not be inviting anyone with any sort of stat niche, if you want those engagment groups, tough luck

This engagement group focuses on Youtubers, Photographers, Bloggers and Musicians to help boost your status on Instagram and other SM.

That meaning, YOU have to be the one doing all those things, No pages that showcase other pages.

This engagement group uses that app slack. So you will need that downloaded in able for me to invite you. We are currently free but once we reach a certain amount of users it will NOT be free. So get your invites in now. We are using Slack to stop force joining and also stop other groups from copying the layout. This is a big opportunity especially for Youtubers who are just starting and want to try to go big.

If you would like to join, Private message me with your social media that you use. If it is a stat account or a shoutout type account you will not be invited.

What does this engagement do for you?

- > Draws attention to your Social Media by using different features, ex: Explore page/ Recommended page (Youtubers)
- > Draw wanted attention from pages similar to yours! No more meme page spam or luxury bullshit.
- > Boosts your ratings to make your posts more likely to go viral!
- > Gain followers and subscribers without buying them! 100% real followers/subs
- > Makes you famous (not guaranteed)

I can't PM you directly as I don't have enough posts just yet but I would love to join! I have personal account that is Fashion / Fitness blogging and photography oriented.

Would you be able to PM me first? Thanks!
