About 75% of all groups that where here since I joined. Why you want to join Torque:I have been into cars and trucks my whole life! Living in the south both of those are a big deal. My dream car is a 1969 Chevrolet Camaro.

I currently drive a blacked out Dodge Ram 1500 | 5.7 Hemi | ThunderRoad edition truck called "The Black Pearl".

I have also worked on everything from ATV's to Big Rigs my whole life and joining a group to share experiences/stories on topics I enjoy would be awesome.

Why we should invite you to Torque:I have a ton of experience with anything that has wheels, from bikes to 18 Wheelers.. And I could offer a lot of knowledge, cool stories, and chats to this group.

I'd love to even do some graphics for the group and such. You name it, I can contribute it. ?

Eagle 95 - January 27, 2017, 11:38 pm

Put some effort in your applications, effort will certainly pay off.

Cabo - January 27, 2017, 11:40 pm

Great group to be apart of. I recommend anyone with an interest in automobiles apply for this group.

SIM-403479 - January 28, 2017, 2:21 am

Great group with some quality members.

Good luck to all who apply.

Cameron - January 28, 2017, 3:04 am

Looking forward to seeing some new faces in the group. Remember to put effort into your application. :)

In the month and a half we've been here we already have 7000+ posts and 250 threads so if you're into automobiles of any sort you'll love it here. :D

I enjoy discussing cars. I enjoy driving cars and I like being in the company of others who do too.

Why we should invite you to Torque:I am not your average, feeble minded 16 year old with a Subaru fetish. I work on all my own shit and I'm big into car audio. Torque(MightyAssassins) - Technically (I'll explain)

Why you want to join Torque:I just recently joined MightyAssassins, the gaming-subgroup of torque. I looked around a bit(no I didn't post in the main one) and the group seemed to be filled with genuine, polite people. I would like to join to get the full Torque experience. Even if I am not accepted into the main group, I still love MightyAssassins and am proud to be a part of Torque at all. Cars have always been very interesting to me and I would like to be able to discuss them with other people who share the same interests as me.

Why we should invite you to Torque:I should be invited to the main portion of Torque because I have a love for cars. Ever since I was young(like 3) every time a mustang or pretty much any sports car passed me and my family I would yell "That's my car!!." I have always had quite an interest in cars and would like to share my opinion with other people who have the same interests. Even if not accepted I would love to stay with MightyAssassins.

To be pretty honest I'm mostly about the 3000GT, since I used to race, but I fucked up and downshifted to 3rd while going like 70 or 80 and it busted a cylinder. I left it like that and now I have a whole slew of different problems that I can't really afford to fix atm. I spend most of my time on 3sgto.org, but it'd be cool to check out the scene on HF.

You mean more centered about my involvment and interest in cars?

I read the group as being about engines and motorized vehicles all-round, but yea I guess I got that wrong, since it seems you guys are more towards automotives, not that that is a bad thing ;D

I currently don't own a car myself, but have my daddys giant 1950 willys jeep at the shop over the winther which we are working on together. ive sold the ones I had after loosing my license. But i am currently looking for a car that I can rebuild and make perfetct for when I can get my license back in april 2018.

Id love to explaine the story behind what happened and all, but its a bit of a personal one haha :D

But I saw someone applying after me which was accepted into the group, so I guess that means my application has already been looked at.. Or am I wrong?

Why we should invite you to Torque:I have an encyclopedic knowledge of the entire script of smokey and the bandit.

I can wax intellectual about all manner of things that go fast, chug mud, scream brap, and haul ass.

I own a Molly Hatchet record on vinyl, and last week I mig welded the land rovers brush guard back on with its own car battery.

Why you want to join Torque:I would like to join torque because I'm a car enthusiast, I like to strip them apart and build them back up, I love to modify them too can provide pictures of my current car as proof with a paper saying "Sentry.MBA HF" If needed that's how dedicated I would be to joining the group. I also love the userbar and signature you guys are wearing around the forum :)

Why we should invite you to Torque:I don't particularly think there is a good enough reason on why you should invite me to torque, but I would love to get to know other users who are into cars as much as I am. Would also be good to get talking to other enthusiasts as well. I can contribute my knowledge about cars within the group chats.

Why you want to join Torque:I love cars! Not going to lie though, I'm only driving a Subcompact Toyota (Bnew) and an underbone MC, but I am interested in old cars and muscles! Knowing more about them will definitely motivate me in getting one.

Why we should invite you to Torque:I don't know if I can contribute to this group that much, but I'm that type of guy that will always do my best to help out. I have been riding since 2011 and been driving for 2 years now.

<https://hackforums.net/member.php?action=profile&uid=3433475> Previous Groups you've been in: Fusion Why you want to join Torque:I am interested in joining Torque because of the fact that it is a motor vehicle based group, and I have always been fascinated with cars. Not to mention the fact that most of the users in the group are rather high quality. It would be rather interesting to join a group of individuals who have similar hobbies and such. Why we should invite you to Torque:I believe I should be invited into Torque because I am a fairly active user, and enjoy making friends. I am also a graphic designer and wouldn't mind helping out every here and there with any group graphics. I have had an interest in cars ever since I was little, and so it would overjoy me to be accepted into this group.

Why you want to join Torque:I'm from out in the country, engines and motorsports (other than NASCAR) are very interesting to me. I spend a lot of time working on (fixing) my vehicle and helping my younger brother work on his Jeep. I'm a big fan of the classic diesel truck and it's utility but I also enjoy the novelty of modern high-octane gasoline engine vehicles.

Why we should invite you to Torque:An invite would be a good way for me to be able to learn more about motor mechanics and to get exposed to some fellow gearheads here on HF. I feel like I could bring some interesting information to the table and also be able to learn some new things myself.

None :(Why you want to join Torque:When I found out there was a group about cars, I had to apply. I've never applied for any other groups because none interest me, except this one. I absolutely love anything that has to do with cars, my whole life i've been into cars, not so much trucks. When I was little me and my sister would play this game where we would try to name all the cars we see while we were driving with my mom. I could name just about every single car and model on the road, mostly thanks to all the Need For Speed games I played when I was younger, like Most Wanted, Hot Pursuit, and Underground 2. I currently own a 2004 Chevy Cavalier and i've had it for

almost 2 years. It's obviously a bit old but it was the only car I could afford at the time and I did upgrade some stuff on it. When I was in high school, I used to go half of the day to a trade school. My trade was auto body and I worked on detailing and fixing cars everyday. I graduated top in my class because I would always make sure the job was done perfect. Like if a car had a dent, I would make sure I used a dolly and hammer and popped it perfectly back into place.

Why we should invite you to Torque: Well i'm not sure exactly why I should be invited to Torque, but I know that I could bring my knowledge about cars and fixing cars to the group. I'd also love to be in this group to learn more stuff about cars, mostly the mechanical aspects.

Thank you for taking the time to read my application, I hope you consider accepting me into your group ?

Career - February 23, 2017, 11:10 pm

Recruitment is now closed, thank you to everyone who took the time to apply for Torque.

Applications will be reviewed over the weekend. If you don't receive a PM by Sunday night, chances are your application was not successful.

Everyone who didn't get accepted is more than welcome to apply once we open recruitment again.
