Thread: [Fill me in on Naruto Shippuden](#)

Disparity - January 27, 2017, 10:16 pm

So Naruto has always been one of my favorite anime, but as I started to explore different genres and as fillers became more and more present in Shippuden I kind of dropped it, which I regret. I love it, and really want to get back into it, but I need help catching up.

I'm currently on Episode 435. It's partway through one of the captured shinobi's dreams where all the leaders of various squads go missing. Could anyone catch me up and remind me what's happened in Shippuden? I'm sure I'll remember everything if I just got a refresher. Thanks.
