Thread: [Scammed by Ryan Reynolds - UID=1610871 + Reselling all those vouch copies](#)

slaughter - January 27, 2017, 10:20 pm

All the vouch copies people has been giving him has he taken the advantage of reselling, HE WAS NEVER GIVEN THE PERMISSION TO RESELL/SHARE.

His profile: <https://hackforums.net/member.php?action=profile&uid=1610871>

If you actually go on his posts you'll see A LOT of vouch copies he has received from different ebook sellers.

Anyways he scammed \$150 BTC as well, he said he was at work 2 days ago had a long night shift, then later he said he was in vacation and claimed he never said he was at work and then he said he will the hotel in 3 hours to help me regards what was the deal or issue the refund now he says he's out drinking and don't know when he will be home. Also he seem to be banned I don't know the reason.

I honestly don't care about the money, and will post proof of our Skype conversations and HF PM's. I just never thought such a reputable member would scam for \$150 BTC and try to resell some friend I know method.

Further proof will be posted, waiting for him to see this thread so he doesn't think I am retarded and won't take the time to actually take action against him.

PROOF

=====

=====

Ok, so the deal was him selling me a method which he had received as a vouch copy by a fellow HF member. He was NEVER allowed to resell/share or any such details, however he processed to do it with all the vouch copies he receives. And put yourself in my position why would I not buy it? It's not my fault I am not the seller I just looked for something he offered me to buy it.

First of let's start by this screenshot where he confirms his skype.

<https://i.gyazo.com/dd0c6b8d51032ee103532a2f236503ee.png>

This was before me buying the method he guarantees me I will make \$1000+ within the first day.

<https://gyazo.com/d8f502fcd894dca6928d2cac8567b772>

Ok.. so I receive the method execute the method same day and guess what? My account is locked as he posted earlier I AM REFUSING TO RECEIVE SUPPORT AND SHOW PROOF THIS IS COMPLETELY FALSE

He asked for screenshot to show proof my account is locked. (I invested all BTC I had that's a dumb move yup)

<https://i.gyazo.com/fd62fe021447deb6a8b6a1f5e8e68e45.png>

I provided the screenshot of proving my account is locked

<https://gyazo.com/e121129d19f16fb1246552a13ec768da>

He quickly tells me to e-mail them which I have done literally spammed them and he well knows this method doesn't work and they won't respond. He quickly changes his mind asking to give him my LOGIN to the gambling site and says the screenshot is fake when I even made a gif with refreshing page etc and offered to do a teamviewer session. I won't give him my login because the password is used on several sites.

<https://gyazo.com/3a496420f3135afe411a4c8f58c07c18> (it wouldn't change password because account is locked)

And then I tell him to do a Teamviewer session he refuses and says he doesn't have it

<https://i.gyazo.com/8bdedb7c4a1d981fe7cff593c51d0bb6.png>

And then he tells me he can't download it.. at this time I knew this was all sketchy from the beginning

<https://i.gyazo.com/acb2d10ca976d8a79fc48a01f778dc11.png>

And then of course he starts telling me to wait for a customer service to respond

<https://gyazo.com/64e22186bf1a580965d726c789839f81>

He also accuses me of using the same IP and failing to do the method successfully when this was my first time testing it on my main machine, main IP.

<https://i.gyazo.com/ad7552b75d42626f60143401e9222d19.png>

And as said I realized this method is very stupid and doesn't work he even refused to show proof of it working

<https://gyazo.com/3a94f08efbba91bc2f8c9f7b87ea4e72>

And then he tells me this

<https://gyazo.com/e137d381e1e1fd76e86e8c7fbd2e82b2>

for 1 I never begged I simply was interested and he offered to sell me it, he broke rules surprised he's a mentor as well.

2. I didn't pay the AGC because he never said anything about it and sent me the method right away so I was testing it before sending the rest otherwise no point to lose both..

3. He starts being a asshole when he guaranteed me things

4. This is when his vacation starts he kept calling me "bro" for the rest of the days "bro I will come back home and show you proof" etc, never showed up.

<https://gyazo.com/407a051786c1164c740c93c278d0fc8a>

<https://gyazo.com/372e064fd9d7c70de72a207856399811>

<https://gyazo.com/7bb38d95803b606ca74d994489e872da>

Days after days, week pass "bro I will be home soon"

<https://gyazo.com/710ad1bb1f3fa171667add39bc90b778>

I even provided blockchain transactions proof etc. Don't let this fool you.

And another day pass he's still on vacation

<https://gyazo.com/27baad2d63b006eefc41356f4bf1e2a5>

This was when he was going to come back to his hotel to help me in "3 hours" never showed up

<https://gyazo.com/b8d4a99b0d79b32c5e1f408e309481e3>

And he threaten me if I open deal dispute he'll just defend himself by saying I didn't pay full.. lol

<https://gyazo.com/60ee81302a4f181bee30638bd3a05491>

And he claims I AM threatning him when all I said I was tired of this and I would open a deal dispute and says I AM denying proof when he keeps saying he's not home

<https://gyazo.com/aec8c1be81fc76b6c2b19c4246c0a9ea>

And again pay attention to the date he never returned to the hotel apparently? I guess he sleeps in the streets? Damn life must be tough for him..

<https://gyazo.com/c321af1bee47fb2186cdc882537a77db>

<https://gyazo.com/f6c606e634bb4d23fa5b1537348f0fc8>

Him telling me I did a nice job about the report, thanks.

<https://gyazo.com/0d4795dd6a3b8e602307d37e2b36431a>

And here is the final conversation of tuesday, I guess he is finally home and denies proof/support and makes a excuse that I pissed him off so he is done with me? lol.. and back to the proof topic again he still asks for my log-in and refuses the gif and screenshot I sent him proof and refuses me to show him over skype sharescreen or teamviewer

<https://gyazo.com/d2cd53384a0c1a6578d090cf98e0a335>

He also claimed that he messaged me on sunday to provide support when HE NEVER did. This is very sketchy and shady moves from him. As said before if you took time to read my big proof post you'll understand how well he was playing this the scam WAS planned.

<https://gyazo.com/6acea53e163f291ca45eeea4cfa0bde7>

<https://gyazo.com/59da7c3a9415b2642deccdd31474a1db>

<https://gyazo.com/8c1413b622d1835c048c4be3c9a1f929>

And this method all about investment the more you invest the more you make, and of course I dealt with nothing but loses.

The method is "A bitcoin gambling exploit" which does completely not work.

The deal was indeed \$150 BTC and \$132 in AGC and \$218 PAID AFTER I would make profit. If you read all above you'll understand why the \$132 AGC was never paid because he never asked for it so I went ahead to try the method after I sent him the \$150 btc he sent me the method directly so I went ahead and try it first and of course it didn't work I was lucky there. Now for all people who doubted me well we'll see what you say now, I'd not waste my time on this otherwise.

I am chatting with him on skype right now, as explained earlier he keeps claiming he's in vacation when he had just told me he was at work 2 days ago and then he changed it up and claimed he never was at work. I have the full skype conversation, and neither did I expect such reputable member to make such douche moves or even bother to scam for \$150 this really doesn't make sense, and I believe he's mentor as well?

Lovely? - January 27, 2017, 10:26 pm

As far as I've understood. Been talking to Ryan, the guy originally selling this method, which obviously isn't the one who figured it out, he was reselling himself. But as far as i understand he's banned, and you asked Ryan to buy it.

I've seen the method in work, and he showed me it and it works fine.

One month ago I thought Ryan is legit too, so I bought his ebook which was 2 public methods from BHW. I didn't open a deal dispute though, because I don't want to bother with it.

Yesterday, I was messaged by a guy and he told me that Ryan sold him an ewhored amazon gift card (probably bought by an inmate that thought he would have sex <https://hackforums.net/showthread.php?tid=5525789>) 10 days ago and it was cancelled really quickly as well. He won't post a dispute though because he has faith in Ryan.

Ryan may be a Mentor and have 2k+ rep but you'd better deal with caution anyway.

And remember that Morchid was also a Mentor and that Blackshadow has 5k rep. So don't take these things very seriously.

Marched was "coerced" into selling his account. Plus, if the same person who bought off Morchid bought Ryan's account, you'd see a lot more than 1 \$150 scam report. You'd see far more than petty cash being taken here. I have faith that Ryan will resolve this.

You literally sent me that and that screenshot at the same time to make it look like I was ignoring you.

The method that I sold this user was something that was being resold here for a ridiculous price. Yes, I got a copy of it. I've had a copy of it. Multiple versions as this method is pretty much on every forum. The user that was selling this was banned and he had scammed over \$5k in regards to something having to do with this method.

OP was begging me for weeks to buy the method off of me. Obviously, I wasn't going to sell it while the guy on here was still selling it. Then I saw that he had scammed a bunch of members and was banned. So I thought, fuck it, I'll give this guy the method for a lower price and offer him support as well. I needed the money. This was NOT a private method so I had every right to do what I wanted with it.

The original price we agreed on was \$500. He then begged to only pay \$300 and then another \$200 after he profits. I felt bad and I agreed to it. He then said he could only do \$150 BTC and \$150 AGC. I agreed but I told him that I would not give him the whole entire method until I get the full \$500. I would only give him enough information to profit a bit and be able to pay me the remaining \$200. Then, I would send him the rest of the information.

He sent me the BTC and rushed me to send him the information about the method. He was rushing me so much that I completely forgot about the other \$150 AGC that he had to send me. I then thought whatever it's fine, I've had him on Skype for a while and I'm sure he'll send it. Of course, he never did.

About an hour later he starts to claim that the method doesn't work. I start to offer him help but he denies it and sends me screenshots and links that literally don't add up to his story. Even though he purposely failed to send me the remaining \$150 AGC, I still tried to help him. I was in Orlando the whole time and all he was doing was blowing up my phone with threats about opening a scam report. That's when I decided to forget about it and that I would deal with it when I'm home.

I got a 3 day ban for accidentally posting something in the wrong section (I was drunk) lol. About an hour after I noticed I was banned, my friend messaged me saying that he went and opened a scam report. I was obviously not able to defend myself at the time. I'm not going to lie, I completely forgot about this when I got home. I only came back home to get the rest of my stuff because I was planning to move up there where I was. I was dealing with a bunch of shit. I even had to sell my MacBook because I needed to help my family here with rent. So yes, I did forget.

Him messaging me today trying to make it seem like I was ignoring him:
Spoiler ([Click to View](#))

I've had some bad luck lately in the marketplace. I've had a couple of scam reports open on me. I hope you all know that I don't have any intentions to scam anyone. The other report was pure bad luck and I'm even paying the person back. If I wanted to scam, I wouldn't have had to sell my fucking MacBook for a bullshit \$600. I have Skype conversations of people asking me how much it would take for me to scam and I have told them that I wouldn't even do it for \$10k. Hell, I've even MMed deals over \$5k BTC. People are so quick to try and take me down that they'll take advantage of any scam report while I'm not even able to defend myself.

If you guys would like any other proof, please let me know. I couldn't provide too much since I don't have my Macbook and it's a pain to upload the images from my phone lol. I think what I provided was more than enough. If not, let me know and I'll provide whatever is needed.

I'm not going to lie, I completely forgot about this when I got home. I only came back home to get the rest of my stuff because I was planning to move up there where I was. I was dealing with a bunch of shit. I even had to sell my MacBook because I needed to help my family here with rent. So yes, I did forget.

Proof of me sending the method:

Proof of me trying to provide support:

Him messaging me today trying to make it seem like I was ignoring him:

Spoiler [\(Click to View\)](#)

I've had some bad luck lately in the marketplace. I've had a couple of scam reports open on me. I hope you all know that I don't have any intentions to scam anyone. The other report was pure bad luck and I'm even paying the person back. If I wanted to scam, I wouldn't have had to sell my fucking MacBook for a bullshit \$600. I have Skype conversations of people asking me how much it would take for me to scam and I have told them that I wouldn't even do it for \$10k. Hell, I've even MMed deals over \$5k BTC. People are so quick to try and take me down that they'll take advantage of any scam report while I'm not even able to defend myself.

If you guys would like any other proof, please let me know. I couldn't provide too much since I don't have my Macbook and it's a pain to upload the images from my phone lol. I think what I provided was more than enough. If not, let me know and I'll provide whatever is needed. Lmao.. I will provide full proof shortly going out to eat. You are fooled if you honestly believe this, anyways full proof will be provided in short, then you'll clearly understand this whole thing and he still refuses to provide proof/support.

I will provide from the time we started chatting to where we are now with highlights.

Not to doubt you, but do you have any of the PM's where it states that he would be paying the \$500

or that he would be sending \$150 AGC?

Just read this entire thread and it seems that both the OP and Ryan are chopping and screwing the skype conversation. More finelined proof would be beneficial to find out who is in the wrong (or more so) in this case.

slaughter - February 1, 2017, 7:54 pm

Ok, so the deal was him selling me a method which he had received as a vouch copy by a fellow HF member. He was NEVER allowed to resell/share or any such details, however he processed to do it with all the vouch copies he receives. And put yourself in my position why would I not buy it? It's not my fault I am not the seller I just looked for something he offered me to buy it.

First of let's start by this screenshot where he confirms his skype.

<https://i.gyazo.com/dd0c6b8d51032ee103532a2f236503ee.png>

This was before me buying the method he guarantees me I will make \$1000+ within the first day.

<https://gyazo.com/d8f502fcd894dca6928d2cac8567b772>

Ok.. so I receive the method execute the method same day and guess what? My account is locked as he posted earlier I AM REFUSING TO RECEIVE SUPPORT AND SHOW PROOF THIS IS COMPLETELY FALSE

He asked for screenshot to show proof my account is locked. (I invested all BTC I had that's a dumb move yup)

<https://i.gyazo.com/fd62fe021447deb6a8b6a1f5e8e68e45.png>

I provided the screenshot of proving my account is locked

<https://gyazo.com/e121129d19f16fb1246552a13ec768da>

He quickly tells me to e-mail them which I have done literally spammed them and he well knows this method doesn't work and they won't respond. He quickly changes his mind asking to give him my LOGIN to the gambling site and says the screenshot is fake when I even made a gif with refreshing page etc and offered to do a teamviewer session. I won't give him my login because the password is used on several sites.

<https://gyazo.com/3a496420f3135afe411a4c8f58c07c18> (it wouldn't change password because account is locked)

And then I tell him to do a Teamviewer session he refuses and says he doesn't have it

<https://i.gyazo.com/8bdedb7c4a1d981fe7cff593c51d0bb6.png>

And then he tells me he can't download it.. at this time I knew this was all sketchy from the beginning

<https://i.gyazo.com/acb2d10ca976d8a79fc48a01f778dc11.png>

And then of course he starts telling me to wait for a customer service to respond

<https://gyazo.com/64e22186bf1a580965d726c789839f81>

He also accuses me of using the same IP and failing to do the method successfully when this was my first time testing it on my main machine, main IP.

<https://i.gyazo.com/ad7552b75d42626f60143401e9222d19.png>

And as said I realized this method is very stupid and doesn't work he even refused to show proof of it working

<https://gyazo.com/3a94f08efbba91bc2f8c9f7b87ea4e72>

And then he tells me this

<https://gyazo.com/e137d381e1e1fd76e86e8c7fbd2e82b2>

for 1 I never begged I simply was interested and he offered to sell me it, he broke rules surprised he's a mentor as well.

2. I didn't pay the AGC because he never said anything about it and sent me the method right away so I was testing it before sending the rest otherwise no point to lose both..

3. He starts being a asshole when he guaranteed me things

4. This is when his vacation starts he kept calling me "bro" for the rest of the days "bro I will come back home and show you proof" etc, never showed up.

<https://gyazo.com/407a051786c1164c740c93c278d0fc8a>

<https://gyazo.com/372e064fd9d7c70de72a207856399811>

<https://gyazo.com/7bb38d95803b606ca74d994489e872da>

Days after days, week pass "bro I will be home soon"

<https://gyazo.com/710ad1bb1f3fa171667add39bc90b778>

I even provided blockchain transactions proof etc. Don't let this fool you.

And another day pass he's still on vacation

<https://gyazo.com/27baad2d63b006eefc41356f4bf1e2a5>

This was when he was going to come back to his hotel to help me in "3 hours" never showed up

<https://gyazo.com/b8d4a99b0d79b32c5e1f408e309481e3>

And he threaten me if I open deal dispute he'll just defend himself by saying I didn't pay full.. lol

<https://gyazo.com/60ee81302a4f181bee30638bd3a05491>

And he claims I AM threatning him when all I said I was tired of this and I would open a deal dispute and says I AM denying proof when he keeps saying he's not home

<https://gyazo.com/aec8c1be81fc76b6c2b19c4246c0a9ea>

And again pay attention to the date he never returned to the hotel apparently? I guess he sleeps in the streets? Damn life must be tough for him..

<https://gyazo.com/c321af1bee47fb2186cdc882537a77db>

<https://gyazo.com/f6c606e634bb4d23fa5b1537348f0fc8>

Him telling me I did a nice job about the report, thanks.

<https://gyazo.com/0d4795dd6a3b8e602307d37e2b36431a>

And here is the final conversation of tuesday, I guess he is finally home and denies proof/support and makes a excuse that I pissed him off so he is done with me? lol.. and back to the proof topic again he still asks for my log-in and refuses the gif and screenshot I sent him proof and refuses me to show him over skype sharescreen or teamviewer

<https://gyazo.com/d2cd53384a0c1a6578d090cf98e0a335>

And this method all about investment the more you invest the more you make, and of course I dealt with nothing but loses.

The method is "A bitcoin gambling exploit" which does completely not work.

The deal was indeed \$150 BTC and \$132 in AGC and \$218 PAID AFTER I would make profit. If you read all above you'll understand why the \$132 AGC was never paid because he never asked for it so I went ahead to try the method after I sent him the \$150 btc he sent me the method directly so I went ahead and try it first and of course it didn't work I was lucky there. Now for all people who doubted me well we'll see what you say now, I'd not waste my time on this otherwise.

Based on your new "proof" which STILL isn't proof of Ryan doing anything, you're pissed because you bought into an ebook that didn't work for you.

News flash noob, 99% of the ebooks on this website are get rich quick schemes and don't work. You're trying to say Ryan scammed you because you bought into the idea that you could make "\$1000 today", which didn't work and now you're mad. Guess what, that's marketing. It might be misleading, it might be wrong, but you chose to waste your money on an ebook and now you're just reaping what you sowed.

If you had a brain in your head you would realize that however much you spent on this ebook, which I'm fairly sure you still haven't even fully paid Ryan for, you could have taken that money and invested it into something worth it and something you can dedicate yourself to working on which really just shows a lot about your character, mindset and maturity level. You didn't want to apply work to get a reward.

Just cut your losses dude. You're not in the right here. Also I don't know why you PM'd me saying there was new proof up when there is still no real proof of anything. Still.

As well RYAN REYNOLDS ? I think you should refer to a post Omniscient made
<https://hackforums.net/showthread.php?tid=5477994&pid=53259735#pid53259735>

Also the seller you claim he had scammed \$5k+ the person who sold the method has 0 disputes no problems and his reason was not banned for scamming it was because he was violating a staff member. You've lied thru this whole thing, I can see how hard you are trying to get out of this or turn everyone on me.

If this is all real, then Ryan should be closed or at least well warned ..

Personally im not defending or helping somebody, i just see whats in front of me..

Baitable - February 2, 2017, 10:55 am

Believing OP @ this point, there is so much proof against Ryan + he can get insta closed any minute..

OP is defiantly on the right in this case and does not deserve all of Ryan's "goons" to neg him.. (Nothing against them, I just like the way he called the so called "goons")

Hope you sort this out, let justice be served :>

This will be the last time I'm going to post here. You guys can decide to believe whatever you want.

Here's proof of the deal being \$150 BTC + \$150 AGC.

Spoiler ([Click to View](#))

As you can see there, I offered a BTC method. Not the gambling method that the user was selling. I know the rules. I know I can't resell a method even if the user is closed. I offered a BTC method which is part of what the guy sold. Which that method is already known and he himself was reselling. If any staff would like to PM me, I'll happily show them as I don't want anyone knowing about this method.

Here's where he sent the \$150 BTC.

Spoiler ([Click to View](#))

This is OP claiming that it wasn't the method. I sent him the part that I knew. Reason #1 being because he didn't send the AGC. Reason #2 being because I can't resell the guys actual method.

Spoiler ([Click to View](#))

Here's where it's obvious that he didn't send the AGC even though I trusted him to.

Spoiler ([Click to View](#))

Now, first of all, this was sold offsite. I don't have any thread selling this method or anything similar to it or part of it. This was ALL through Skype. Now tell me, how am I going to provide support to someone that is obviously trying to finesse me? He purposely didn't send the AGC and took advantage that I forgot and is claiming that he didn't make anything. I'm sorry but I'm not going to pay him the \$150. He knows the method and he knows that there's literally DOZENS of ways he can make money with it. Like I said, if a staff or another mentor wants to PM me I'll happily show him what I showed OP and they will know that this is worth WAY more than \$150.

I've said this before and I'll say it again. I've never scammed anyone nor have I ever had any intention to. If I wanted to scam, I would've scammed the thousands of dollars I've MMed for. But ANYONE here knows for a fact that I wouldn't do that.

OP is claiming I'm reselling vouch copies as well. I've literally received DOZENS of vouch copies for products and services and NEVER sold anything. I'll get everyone that has given me a vouch copy of products to prove it if I have to.

Like I said, this is the last time I'm posting here. Any other proof, I'll gladly provide to a staff member through PM. I'm not dealing with this childish shit anymore.

I mean this is all you needed tbh. If a trade is done off-site it's irrelevant imo. Too many things outside of HF can be modified/doctored to look differently. Omni can read PMs on HF so that's the only legitimate way to establish rule here.

No one should do trades off-site, or if they do, then they should expect that it will never hold any value back here on HF.

From what I recall, this is how Omni himself feels. No off-site scam reports.

Papa Cuda - February 2, 2017, 11:53 am

Oh fuck, R.I.P. OP guys, lest we forget.

(Feb 3, 2017 02:25 AM)Yani Wrote: [\[CITE\]](#) How was this offsite if they met each other on HF? It's still a deal that originated from HF.

Anyways this is just bullshittery. I'd say pay him back the money and stop with this "method" nonsense. It's all bullshit.

Because unless the communications went through on HF, any and all chats can be spoofed by the user, so they hold no legitimacy. If a deal is done through PM on HF, Omni can literally validate them on-site.

I'm not siding with RR but how do you know it was him? Nowadays anyone can take an IG could be anyone honestly
