He was acting really weird to begin with saying that it wasnt him posting and then saying it was and proving the login.

Dude took payment and ran to this paypal :
adicode32@outlook.com

His icq is 683001188

Ill provide adequate screenshots where he even showed himself logged into the account on icq.

Are you planning on giving the OP back money that was wrongfully taken under your name due to your lack of protection on your account?

BULLSHIT. Looking at your trustscan proves that this is bullshit.

I do see that all of your shit was changed 26th of January. I guess this was you, since you are the user on the account now?

The PMs in the screenshot clearly says that they were sent the 28th. Explain?

Also - Last IP change was 27th of January. The PMs were sent a day after.

Scam report seems very valid. Sad to see someone scam for \$7 - If you need the money @OP - PM me, I will gladly send you \$7

Its clearly him, he will even respond now if you contact him via pm and try to still sell shells. Its him. I want the refund from him and him only. Youre a good man though +rep

Funny how he made a new thread today. Selling the same stuff. Also contacted him through another method and he tried scamming me there too. What a piece of work.
