Thread: [Looking for someone to code a VPS for me and answer some questions](#)

ddo5in - January 30, 2017, 4:45 pm

will pay if you can help lmk.....

Megabear - January 30, 2017, 4:47 pm

I really hope someone actually does this for you.

? ?

ddo5in - January 30, 2017, 8:15 pm

any1 who can do this for me leave skype will pay

JoshuTee - January 30, 2017, 10:21 pm

Wrong section, please post this in the correct section.

nobodysHero - February 1, 2017, 2:32 am

What do you mean by code a VPS? Like setup linux, webserver, php, mysql etc..?

Why not just ask in here, and people will help you for free.... or it doesn't work like that ?

BoyInWhite - February 1, 2017, 2:38 am

Probably setting up his vps

Corrupt3d - February 1, 2017, 4:05 am

i was searching trough the coding forum and saw this my mind was fucked for a few seconds like
batch = vps ???

ddo5in - February 2, 2017, 10:06 am

i cant send private message but its a simple OS error i think i need some help if someone can pm me their skype and help me out id appreciate
