You're starting out well! Just keep doing the page and maybe one day it will prosper. If you try, it most likely will.
And I also want to be critic, I think the Snapchat logo is a bit too overwhelming :D

Looks pretty decent, If you can keep this up to date daily I would sub.

- the logo is too big and needs more work on the design tbh.
- Huge Snapchat logo in the footer? Why? please remove it.
- this 2017 mate... calendars are everywhere; you don't have to add one in the footer of your website anymore.
- also, add more content.

Find a way to do post-by-date organization better. The calendar is weak.
