I was not trying to rat people I think you went to the wrong link I have proof here, <https://i.imgur.com/3kjaOwQ.png>. That is the link to download the Doxing Guide. I wish I could actually talk to everyone at the same time to prove I'm legit because I'm really trying to grow within HF. If anyone needs more proof I will be gladly showing them if you pm me.

Also if anyone wants to voice chat with me in order for them to understand this better I'll be on my discord server for anyone that wants voice / video proof.
