Thread: [make an easy 20\\$ a day with 2 hours of work](#)

nakama30 - February 2, 2017, 11:30 am

i've decided to give back to the HF community as i have learned alot for the past to weeks reading threads and methods on this wonderful forums so today i'm sharing my own method that's been working great for me for the past 3 years whenever i need some quick money. this is mainly for noobs who are struggling to make their first \$\$ online, it involves some manual work but can be scaled with automation bots. i'm not trying to get referrals or anything but i don't want this to be saturated, hit me up on skype as i can't PM yet ; thomas.bachlin
btw if this is posted in wrong forum please delete or move to the right one

Okkkkkkkkkkk

if you took the time to message me and ask about the message instead of bashing the thread ?

I'd assume the the "to" is supposed to translate to "two" but your account was created in Feburary of 2017 and I am almost certain that we are not two weeks in yet.
