Thread: [Massplaner Or Followliker Or Gram Multitool?](#)

EasyPeasy - February 3, 2017, 2:32 pm

Hello people of HF,

I wanted your input before I purchase any of these products.

Should I purchase massplaner/followliker or gram multitool?

If you suggest me one, please tell me why it is better? Interested in input from which one you are using right now and any inconvenience you're having?

Apocryphon - February 3, 2017, 4:35 pm

Most of the guys use MassPlanner these days and I think you should go for it.

Massplaner has kinda fast updates all the time and the support is great.

Followliker updates are slow?

b?xxy - February 3, 2017, 5:03 pm

I'm personally using Followliker.

EasyPeasy - February 3, 2017, 5:11 pm

Since when are you using it? How many inconvient happened?:)

Tweex - February 3, 2017, 5:18 pm

I have gram multi tool i can show you around if you'd like. I enjoy it.

I used to have it but they gave me a partial refund, and I dont want to bother paying the full price again, and again I dont even know if it works well as of now!

VirtualFrost - February 3, 2017, 7:16 pm

Followliker and massplanner are most reputable and legit. Both are known to work. Depends on your budget and what you want to achieve. I'm not even sure of the difference between the two

Nine - February 3, 2017, 7:38 pm

I use MassPlanner. Easy to use and have had no issues with it.

EasyPeasy - February 3, 2017, 8:21 pm

Thanks for your feedback, it was appreciated!

Magic ? - February 3, 2017, 11:05 pm

Massplanner and GramMulti tool, both have their perks. I personally use Gram Multi tool for instagram spam.

EasyPeasy - February 3, 2017, 11:24 pm

I would deff recommend massplanner, if you buy the premium plan you will get so much more than a regular FL license offers. One could also argue that MP is much more optimized for mass volumes of accounts (rather than FL which cant handle that much).

EasyPeasy - February 4, 2017, 8:16 am

I purchased followliker for now, I'll see how it goes, feedbacks are still appreciated!

elfemage - February 4, 2017, 8:18 am

Only tried MassPlanner, and I can say I am satisfied.

SIM-888979 - February 4, 2017, 8:54 am

Massplanner if you like to pay a small fee to try it out (\$15/mo) instead of Followliker which requires a large payment (\$99) for unlimited accounts.

Massplanner is also used by most people running IG + CPA.

SIM-2613601 - February 4, 2017, 9:21 am

I use Massplanner IG Edition. 16.95\$ a month + tax (Europe, Portugal). Very nice, many features. Constant Updates. Multiple Platforms and unlimited accounts.
After some tweaks you can make Massplanner use a bit less ram.
Can be a bit difficult to setup, there soo many options. but bit of research and you will make it.
I think since its pay monthly, its an incentive so they keep upgrading the software.

leo1in88 - May 15, 2020, 8:55 pm

do anyone have gram multitool?

SpookyD - May 16, 2020, 12:12 pm

I am using other iGramTools and i like them (scrapers and account creator)

For automation i still prefer MassPlanner, it doesn't have real competition right now.
