Everyone who purchased got their copy, but you was inpatient enough to chargeback because you didn't receive your copy same second you purchased. We have some security protocols to take when sending out copies, that's why it takes some time, but no one will be left without a copy.

Please close the dispute and we will send you your copy.

ZikiMMV - February 8, 2017, 11:04 am

First of all, I want to start by saying that I have purchased the Astronaut package (can show proof of payment) and that wasn't paid to create this review...

Originality: 10/10

I personally never encountered with any of the provided methods and that's the first thing I was happy about when I purchased Astro Profit.. Many e-Books before disappointed me with unoriginal methods I have already saw in free e-Books, but this one is 100% different. There are total of 4 methods and I never seen any of those..

Layout: 10/10

The layout of the ebook is best I have ever seen ever in my life (I purchased many ebooks before outside HF and saw a lot of them on the internet).. Whole guide consits of pictures and so called Helpers that explain each picture in detail and overall organization of text and pictures is very pleasing on the eyes.. I can right now say that guys from Dollarmond took quite some time to write and design the eBook because it's really good, trust me when i say this...

Money Making Potential: 9/10

Of course you won't get a button to earn on the internet.. you have to work in every method, but that's good because you feel like you deserve the money you earn.. When I started with method #2 I felt like a real businessman and it definitely introduced me to a whole new world of online money-making. I'm really satisfied with both methods and feel that this e-Book gives.. I believe everyone should buy this because it will both expand your knowledge and give you a feeling you're a true businessman dealing with real customers and earning real money.. :)

Overall: 9,5/10

I'm really satisfied with this ebook because first of all, you get a beautiful ebook with good methods inside.. basically everything you need to start making money online.. It introduces you to a new world of money making and basically forcing you to become a businessman.. I also want to mention that dollarmond support answered all my questions I had (i always want to be sure I'm doing everything properly..) and I can proudly say I made my first money in only few days.. I can't be happier with my purchase and even as I'm writing this I had one sale (for \$20)..

Here is my proof of earnings:

I don't see a reason why would you post something like this without knowing a single thing about Astro Profit. We don't choose our customers, we kindly ask everyone to leave a honest review on our thread so people can know what they are buying. Not all customers post their reviews, but some of them does and you can be sure that none of them were paid for or something even similar to that. ?

I can right now say that guys from Dollarmond took quite some time to write and design the eBook because it's really good, trust me when i say this...

Money Making Potential: 9/10

Of course you won't get a button to earn on the internet.. you have to work in every method, but that's good because you feel like you deserve the money you earn.. When I started with method #2 I felt like a real businessman and it definitely introduced me to a whole new world of online money-making. I'm really satisfied with both methods and feel that this e-Book gives.. I believe everyone should buy this because it will both expand your knowledge and give you a feeling you're a true businessman dealing with real customers and earning real money.. :)

Overall: 9,5/10

I'm really satisfied with this ebook because first of all, you get a beautiful ebook with good methods inside.. basically everything you need to start making money online.. It introduces you to a new world of money making and basically forcing you to become a businessman.. I also want to mention that dollarmond support answered all my questions I had (i always want to be sure I'm doing everything properly..) and I can proudly say I made my first money in only few days.. I can't be happier with my purchase and even as I'm writing this I had one sale (for \$20)..

Here is my proof of earnings:

We're not forcing them to put their earnings, however we're testing methods once per week and here are the results:

Once you put the methods to work, you will be earning on autopilot. ?

Alright, so a few days have passed so I decided to make a review to share some info and feedback. Its a pretty good book I was surprised how much work was put in. I mainly used methods 1 and 4, 2 and 3 were kinda difficult for me. Earned about 93\$ in 2 days, minus for what I paid for a book, leaves me about 60\$ of profit. Pretty good, but I still have some work to do. Il continue working and Il post my updates.

Here is my honest review for Astro Profit:

At first I didn't like the content inside because it looked a bit too difficult for me, but after I re-read it and understood the methods, I was kinda motivated to start doing them right away.. After I read it the second time it all made sense and I started doing them right away (didn't wanna waste any time). I can honestly say I got in some trouble along the way but Cyam helped me almost immediately and I was able to set the methods up.

I didn't have high expectations, had no sales first day and no money made from the methods, but I

didn't lose my hope. Second day, I had 3 potential buyers overnight and I managed to make money from all of them.. This is the result:

I made \$100 in the easiest way possible, I TRULY DIDN'T KNOW MONEY MAKING ONLINE was so easy.. thank you a lot for this e-BOOk and hopefully by the end of the month I will have enough for new PC and monitor, Eavac made this possible and they have my deepest vouch.

deadsh0t - March 21, 2017, 3:53 pm

This looks very promising although im very sceptical since i have never bought an ebook and the free ones are bad however i might buy the deep space explorer package may i ask earning this ebook back in the first 24 hour of purchase what is the chance of that in %

Layout: 10/10

The layout of the ebook is best I have ever seen ever in my life (I purchased many ebooks before outside HF and saw a lot of them on the internet).. Whole guide consists of pictures and so called Helpers that explain each picture in detail and overall organization of text and pictures is very pleasing on the eyes.. I can right now say that guys from Dollarmond took quite some time to write and design the eBook because it's really good, trust me when i say this...

Money Making Potential: 9/10

Of course you won't get a button to earn on the internet.. you have to work in every method, but that's good because you feel like you deserve the money you earn.. When I started with method #2 I felt like a real businessman and it definitely introduced me to a whole new world of online money-making. I'm really satisfied with both methods and feel that this e-Book gives.. I believe everyone should buy this because it will both expand your knowledge and give you a feeling you're a true businessman dealing with real customers and earning real money.. :)

Overall: 9,5/10

I'm really satisfied with this ebook because first of all, you get a beautiful ebook with good methods inside.. basically everything you need to start making money online.. It introduces you to a new world of money making and basically forcing you to become a businessman.. I also want to mention that dollarmond support answered all my questions I had (i always want to be sure I'm doing everything properly..) and I can proudly say I made my first money in only few days.. I can't be happier with my purchase and even as I'm writing this I had one sale (for \$20)..

Here is my proof of earnings:

Does main method include eBay? Or any of methods?

I can honestly say I got in some trouble along the way but Cyam helped me almost immediately and I was able to set the methods up.

I didn't have high expectations, had no sales first day and no money made from the methods, but I didn't lose my hope. Second day, I had 3 potential buyers overnight and I managed to make money from all of them.. This is the result:

I made \$100 in the easiest way possible, I TRULY DIDN'T KNOW MONEY MAKING ONLINE was so easy.. thank you a lot for this e-BOOk and hopefully by the end of the month I will have enough for new PC and monitor, Eavac made this possible and they have my deepest vouch.

My honest review on this :

I bought the deep space explorer package

Ebook Layout 9/10 this ebook is hq made and looks real nice, it also adds a personal feel to it because of the last page

Methods 8/10 however not particular special these methods are good and i made my investment back within 48 hours these methods are flexible and can be implemented in your local market just like i did

Explaining 8.5/10 most of it is explained good however method 4 i believe isnt that detailed and could use some more explaining like payout methods etc

Support 3.5/10 responded once after 2 days than never again on skype even though i bought the deep space explorer package for the sole reason of refund and support, fix your support if you cant handle all the questions get more people. i still gave a 3.5 since the way he responded was polite and he apoligized for missing my message. but then again not responded to my questions so had to figure it out on my own.

Overall Its an great ebook and the methods do work good and are flexible however would not suggest buying the most expensive package as with my experience i cant speak for others and this is my review so yeah the support wasnt good.

Its a pretty good book I was surprised how much work was put in. I mainly used methods 1 and 4, 2 and 3 were kinda difficult for me. Earned about 93\$ in 2 days, minus for what I paid for a book, leaves me about 60\$ of profit. Pretty good, but I still have some work to do. Il continue working and Il post my updates.

Will reply to you, please do not use thread for support.

No. We offer refunds to people who don't make any money within a month with our support and e-Book which is nearly impossible.

We never mention that we will refund you if you do not make \$100 per day, that's silly.
