Thread: [Razer Headset Question](#)

CPR0X - February 4, 2017, 4:27 am

Hello, i just got a fast question, i have a razer headset and its really wierd since when ever i play a game or something my razer headset going bzzzzzzzzzzzz and the other guy on skype can also hear this, its really annoying, and its also just in game (nothing else) do i need some other drivers or something?

I own razer kraken pro neon

Can someone please help me with this?

Thanks in advance.

Yea the 2nd one but i kinda had it all the time since i bought them, first time its this really loud xd

Edit: Disconnected everything and when i disconnected hdmi the bzz sound stopped, any ideas?
