This tool is really easy to use and efficien. There is a tuto available for the auth key part in settings You can put multiple targets to rip at same time.

Ads detection and blacklist features are really useful and The program can even recover pictures and videos.

So if you do not have time to grow your Twitter account yourself, this tool is for you. Especially at this price.

Alright so the program is working as described and can be used to grow account very easily without any effort as I'm an IG grower and repost stuff all day this would be the ultimate tool if it was for IG.

I'm not the most experienced with Twitter growing but I managed to grow a few followers in a single day. Without doing anything. The program has a very good feature where you can block certain keywords so you don't repost inappropriate posts or advertisement.

I would say this is an must have for twitter growers.

if I could I would like to suggest that you add maximum posts per day.

For the price this is worth it but a few new features wouldn't hurt.

DarkSwag - February 4, 2017, 6:27 am

If I can get a vouch for a honnest review :)

God - February 4, 2017, 6:28 am

Looks good.

You should add something to only target one user and then change the profile picture / status and etc so it's an exact copy of the account.

If you grow a stat you always just reposts others work and that can be very boring so what this will do is it will do it automatic so you can just set and forget and your account will grow w/o effort
