Thread: [MindBreaker Obfuscator Copy and paste \(uid=2762393\)](#)

mehtevas - February 4, 2017, 6:21 am

This user(<https://hackforums.net/member.php?action=profile&uid=2762393>) is selling a copy and pasted obfuscator :

<https://hackforums.net/showthread.php?tid=5542001>

proof :

<https://sendvid.com/25snvp26>

He got rickrolled : ^)

Magna imperium - February 4, 2017, 6:24 am

Maybe he just got based on that project?

mehtevas - February 4, 2017, 6:25 am

(Feb 4, 2017 07:24 AM)Niveus~ Wrote: [\[CITE\]](#) Maybe he just got based on that project? its the same link.

if he would have based his obfuscator on confuserEX he would build on the "core" and not copy and paste whole functions

Aristocles - February 4, 2017, 6:25 am

I second this. Not only he sells a copy/pasted obfuscator, but he doesn't want to confess it, nor to tell the truth to his customers.

Lets see if he gives a proper reply then :)

You want the truth? okay... it's a modified version of Bed's protector which (I THINK) is a modified version of Ben's protector that's why it looks alike

There you go. Why lying ? Especially on your sale thread.

God - February 4, 2017, 12:05 pm

Seems like a valid report.

OP, please don't use sendvid again, it kept on giving me dating popups when I was watching the video lmao

adblock

on youtube you can take the videos easily down dont really want to reup the video every 10 minutes.

A NEW ERA... - February 4, 2017, 12:11 pm

That youtube video was dope. 10/10 would watch again, #copypastemasterrace

Okay that makes it worse to be fair

Because from what I remember of beds protector from when he asked me to look at a crack me

The obfuscation is the exact same as the crackme in your thread (obfuscation wise)

The only thing you have changed is the attributes not much is it

You claimed to me that you edited strings and cflow yet when netguard looked at it he said nothing had changed
