Only reason I joined this site was for the Xbox gaming section. Have like 1191 posts in this section. Still my highest for post activity.

Really sad seeing how inactive this place has become. I remember when it use to be so active.

Now all I see threads about gameshare etc. I don't see this section getting any better. Guess that's how the halo section is also

Man, I haven't played Halo in forever now that I think about it. Love Halo sm lol

Brenton - February 4, 2017, 2:01 pm

It kinda be like that. I still play just not as much. I feel like that's with a lot of people.

I have you added, yeah?

MeltyNet - February 4, 2017, 2:04 pm

You're right this section was active, it's starting to die though IMO.

Probably because everyone is playing less console games and more computer games.

Couldn't agree more dude.

I feel the exact same way. This section is where I post the most. It's my most active as well.

It's just ass compared to when I first joined.

Not as many people play consoles now which is very sad to see.

Halo was my favourite.

A NEW ERA... - February 4, 2017, 3:38 pm

I still play console a SHIT ton.

jc712 - February 4, 2017, 7:15 pm

Not many people on consoles anymore which is kind of the reason why I'm barely ever on :/

I'm still here... Just.

There is a few sections that are dying..

A good example is the Call Of Duty section.

That section used to be active but now since CoD has gotten shit. So has the activity.

Parks - February 4, 2017, 9:53 pm

I feel like all my responses on this forum everywhere are fake... even this one IDC

Besides microtransactions, the Modern Warfare Remaster is great. It's nice playing a Cod on current gen without the parkour crap. That's what kills it for me in the newer ones aside from the ok zombies experience.

Give the remaster a try though. Sadly you have to get the Legacy Edition of Infinite Warfare to get it, but it's worth it in my opinion.

Microsoft is cracking down on exploits, and patching everything. All I used to find back in 2012 was exploits and such now its all shit mostly

The Xbox section is my favorite section too, the first thing I do when I go on Hackforums is check this section, I wish this could get better.

Huskygoodboi - February 7, 2017, 7:11 am

Console Gaming is just about dead.

Time to convert to Steam!
