Thread: [Play my new game \[Blast Bang Boom\]](#)

MrJamieMcC - February 4, 2017, 2:06 pm

So im a student studying Game Development have a play of my new game Blast Bang Boom. Its nothing major, just a quick fun game.

This is my first game produced solely by myself in my free time. It is a quick indie game designed to test your quick reactions.

When opening the game please be careful of the audio. It may be a bit loud. And remember to click on the "How To Play" button to understand what the game is about etc.

The game suits all types of skill levels. So everybody can have a go.

Here is the download link.

Thank you,

Jamie

It is the scan of the Launcher, I have not scanned resource files, so launch this exe with caution.
