Thread: [Can anyone find the admin page.](#)

Shebu - February 5, 2017, 3:07 am

etoosindia[dot]com Not able to find it's admin page and any vulnerability.

JELLY?IsH - February 5, 2017, 3:08 am

Which tools did you use for finding it?

Shebu - February 5, 2017, 3:18 am

Im using Havij. You know any other?

Onii - February 5, 2017, 3:36 am

it might not even have an admin panel, can't figure out what software its using but it's based on apache struts/java

Shebu - February 5, 2017, 3:48 am

Can you find any vulnerability!?

JELLY?IsH - February 5, 2017, 3:49 am

You should use Kali Linux or any other Pen testing OS. It has a lots of tools that can help you find vulnerabilities.

Plugs The Plug - February 5, 2017, 4:02 am

I couldn't find anything. But if you haven't already, try looking at the robots.txt and sitemap maybe?

Chainfire92 - February 5, 2017, 4:44 am

take a look here

http://blog.etoosindia.com/wp-login.php?redirect_to=http%3A%2F%2Fblog.etoosindia.com%2Fwp-admin%2F&reauth=1

not sure if you were looking for this one

PerfectStorm - February 5, 2017, 3:40 pm

If you want the dictionary script for hydra for that page I can pm it.
