General comments: The book is very well written and very good for your money. As a beginner to trading myself, I thought it was very informative, and patient in explaining to you the basics that are necessary for you to do well in Forex trading. The layout is easy to read, and given there are 50+ pages of content, you are bound to learn something you didn't know already, or in my case, learn a lot as I didn't know anything.

The breakdown:

Content: 10/10 - I really can't fault this, for this price you are essentially buying a real book and getting all the details within it.

Layout: 8/10 - I'm not a fan of the layout too much and think pictures would have made it better and more readable, as well as the text being sectioned better and in a smaller font.

Originality - 9/10 This covers the basics and more of what you need to know about Forex, which is a great place to start as there is room for a lot of profit if you use Forex correctly.

Overall - 9/10 It does exactly what it says on the tin. It's informative, easy to read and very useful for traders of all experience.

I received a vouch copy and I am not associated with OP in any way. Here is my honest review for the method.

Okay so for \$15 you get over 50 pages of amazing high quality information about trading in the forex market. If you are a beginner or have minimal knowledge with forex this is an amazing starting reference. The quality of this book is amazing. Yes I said book because it is just like one. The grammar is amazing and it's super easy to follow. I have never seen a method like this before so I'd say it's pretty original content. Overall I would say buy this now! For \$15 you get so much content and information that if you are serious about getting into forex you should buy this instantly!

Vouch from me this is amazing!

[b]Grammar- 10/10

There are no major grammatical errors and everything is well written.

Method- 8/10

The Method isn't bad. This guide tells you most if not everything on how to be a really good Forex Trader.

Overall-

Was extremely happy to receive this ebook and hopefully I will become a pro trader.

If you need a vouch for someone who has traded and is well versed in forex please let me know. I have been apart of many MLMs (IML mostly) and stand alone companies offering knowledge (FIP/GV/WS).

Vouch for this ebook, I really learned about Forex Trading from it. I was a newbie myself but this ebook really helped my understanding.

Grammar- 10/10
There are no major grammatical errors and everything is well written.

Method- 8/10
The Method isn't bad. This guide tells you most if not everything on how to be a really good Forex Trader.

Overall-
Was extremely happy to receive this ebook and hopefully I will become a pro trader.
