Nice looking site tbh, i hope they're not requiring id before withdraw, as i've witnessed the problem with bitstarz, where they screwed me over.

Bringing this back up. Still my favorite and go-to sportsbetting site.

Wyatt Garcia - May 18, 2017, 11:05 am

I have could won 60mBTC with my 15mBTC but this site is fucking dumb. And the support agent I talked with.

This is stupid:

I make a deposit - I get a notification after couple minutes that my deposit has been received and added to my balance. Got 15mBTC balance.

However I cannot make any bets, when I try to bet it just loads. Asked live chat, and the dumb operator tells me "Oh yeah, Bitcoin works like that you need to wait for 1 confirmation."

Fucking nonsense. Its instant deposit - you get money instantly to your balance but you CANNOT use it. (You have to wait for 1 confirmation)

Operator also told me its in Sportsbet's ToS. However I asked him about 4 times show me the part where you state that. He never linked me or anything, just told to email their department. Then he closed the chat.

tl:dr

Deposited about 35\$ to Sportsbet - tried betting on USA vs Finland, on Finland with 4.5 odds. I have 15mBTC on my balance, but I cannot bet because it does not accept my bet. After like 10 minutes, Finland scores and the odds go to 2.5 for them, still don't have my bet in. I got my bet in at 2.00 odds (when the BTC finally confirms)

I still won money, but I've could won 4.5 times my bet..
I have used this site for like 3 months and never had a problem like this.

Last time i'm using sportsbet.

So my problem is - why would you add money to my balance if its unusable until the payment actually confirms? Most sites give your balance when it hits 1 confirmation, or they let you withdraw when your payment is fully confirmed.

I used sportsbet because I thought its instant, like it has been before. That I don't need to wait for my deposit to confirm , i can just bet.

ObRaggs - October 8, 2017, 5:44 am

Hey I have a question.. Are bet tippers trusted like forza 19 etc? They ask for a €300 payment before a match and will give you 1 or 2 fixed match.. or this is a scam?

Kimmo - *October 8, 2017, 11:36 am*

The site is pretty slow for me

Stuck - *October 15, 2017, 12:01 am*
