Thread: [Amazon gift card balance](#)

**Larsenpower** - February 8, 2017, 8:41 am

I had a guy send me a screenshot of an amazon gift card. I had to redeem it.

I am not from the US so I don't really have any use for this. Do you guys know what I can do with this?

And no, I am not trying to sell the account :)

you can basically sell it by buying people's wish lists, then they pay you BTC

I think

I think

Hmm, and is this allowed here on HF?

Yeah, it is.

You could save up to 33\$ on your balance and then send someone a 3 month prime code for 33\$ and get them to send you 75% btc, this would be found in the currency exchange section. If you are looking to purchase an amazon item in exchange for btc then i highly recommend using [purse.io](#) as you can get a rate of about 80% there.

Just go to [purse.io](#) for this stuff. Unless you got like \$10, then its pretty useless
