What's the best way to get PayPal to cash without it getting back to me? Is there anything I can buy then resell for a different payment processor? Help me out.

PayPal fraud can't be discussed on HF.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

This isn't PayPal fraud.

I think he's asking how to get real money with PayPal instead of using PayPal > Bank?

I think he's asking how to get real money with PayPal instead of using PayPal > Bank?He said "without getting it back to me", makes it sound like he's trying to withdraw money from a fake/stealth paypal without being traced.

I could be wrong though.

I think that there are a lot of sites that connect sellers with buyers and allow multiple methods of payout. The biggest issue though, is that these sites take a fee that is probably higher than the exchange rate of paypal to bitcoin.
