Thread: [>> !! FREE IT Cert Resources & Vids !! sec+ vcp5 cca-v cbt server 2012 & more <<](#)

affluence - February 9, 2017, 5:35 am

About to sit the CCA-V and subsequently the VCP5 for work and have been compiling a list of resources (study guides, test exams/dumps, videos).

Currently have access to plural site and can rip any courseware that is available there. I would have to upload to a site and then share the link. Any recommendations on particular sites and courses? Was thinking mega.nz but the upload throughput is slow.

For all of the CBT Nuggets I have not personally looked into these. Only the related CCA-V dumps + pluralsight.

If you want something let me know ?

CompTIA Sec+ was requested and is now uploaded. If you need any type of assistance or particular course I can try to locate and retrieve it.
