Scammed by Kaleb

- <https://hackforums.net/member.php?action=profile&uid=3384515>

He upgraded to L33T just a few hours ago

I gave him \$20 in PayPal Balance and he was supposed to give them back in BTC.

I kept messaging him after that saying I didn't receive anything and he never answers.

I see his online status, send him a message, his online status goes to "reading private message" then "viewing mazen237's reputation" then he just ignores and goes to a thread talking about friggin dick sizes.

Later I see him replying to a thread, I message him twice and he ignores it again.

Edit: Couple of weeks after I messaged him when he was online and told him I'm upgrading and I'll open a scam report, he read it and ignored it. He changed his username after this thread

Edit 2: No idea how he got approved for fucking ub3r.

Ineligibility to post in the market isn't an excuse to post it in the lounge. Hope this gets resolved though OP.

I searched his UID to see how many reports he has and this is hilarious.
16 reports.
