Thread: [Upgraded to 3pic but still cant post](#)

Ridoor - February 11, 2017, 4:41 pm

I am still unable to start threads or make posts in the Counter-strike forum for example. any idea why? thanks!

Larsenpower - February 11, 2017, 4:41 pm

Your 3P1C has not come through yet. Wait until it comes through. May take up to 24 hours

HighTier - February 11, 2017, 4:42 pm

You should've bought L33T before 3P1C.

Nope GG thought you could saved a few bucks didn't ya?

Ridoor - February 11, 2017, 4:46 pm

the only feature i wanted was to be able to start new threads and reply to others. nothing fancy, hence why i went with the cheapest option. guess now im screwed?

Lovely? - February 11, 2017, 4:48 pm

wear the usergroup i think thats what adds the prestiges.

Ridoor - February 11, 2017, 4:53 pm

not sure what you mean?

i can see the 3pic usergroup in my profile. however im still unable to post replies on the forum. not sure if its because it is still not verified or because i purchased 3pic before L33t?

You need L33T in order to post in the Lounge.

FamousHater - February 11, 2017, 4:57 pm

apply the userbar op

iNk. - February 11, 2017, 4:58 pm

Everyone's trolling you.

The simple reason is because of one reason.

1. Your post count isn't high enough

Ridoor - February 11, 2017, 4:59 pm

that is why i upgraded to 3pic. in order to be able to post.

im really confused now.

was my upgrade useless?

?lood - February 11, 2017, 4:59 pm

You can go to your userCP, scroll down until you see Group Memberships click on it, scroll to the bottom or where ever you see Epic and click on, *HF 3p1c (Set as Display Group)*. And yea what they said^.

No you have to pay for the full \$18 no other exceptions or options.

??GY - February 11, 2017, 5:11 pm

Yeah it's prestige or L33T.

You can get prestige with any of your account's statistics, such as:

-Online time

-Posts

-Reputation (Don't ask for this, though)

My advice would be to spend a lot of time on HF, posting around to try and help people, hoping they give you reputation. Again, don't ask for it- earn it.

And there are no options to change your upgrade or to refund you.

Good luck

Ridoor - February 11, 2017, 5:11 pm

crap. guess my \$25 went down the drain! yeah, \$25 paid via paypal to get \$15 worth of bitcoins!

Who charged you that much for \$15 BTC? Most people do it for a 15% fee.

Ridoor - February 11, 2017, 5:13 pm

Virwox.com

safest, but most expensive.

Can't believe it took this long to get the correct response for something so simple.

ohxerxe - February 11, 2017, 8:09 pm

The Counter Strike section Requires 25 Prestige to post in to keep the trolling down. Was recently implemented in like October. You should still be able to post in the lobby sub forum though if you are looking to do that.

EDIT: Atleast that is what he had said. I see some people without the requirement.

Never seen an upgrade change, I assume all donations are final. Plus l33t costs a couple dollars more than epic so you couldnt simply swap it

rsx - February 13, 2017, 8:56 pm

You need 25 prestige or Leet to post in the CS section. You should have just bought leet bro lol

Eagle 95 - February 13, 2017, 11:31 pm

There are 3 ways to get around this:

Purchase l33t this time - the least painful and the best option (IMO). Also, you get many side-wide options, such as increased inbox, ability to close your thread, use images in signature, etc.

Purchase a \$20 award, awards bring 25 prestige so you'd be able to post everywhere.

Increase your prestige by posting, being on forums, getting positive reputation, etc.
