Thread: [T-SHIRT Logo](#)

SocialAgency - February 13, 2017, 9:11 am

Hello there,

My dream is to get my own T-Shirt design and sell it at my local clothing store.

The problem is that my budget is 2 low in order to pay someone for the actual design / logo.

If you got some spare time and want to help me with the logo's (2 different ones) please contact me :)

Once the logo's are done I will get it printed on a shirt etc. and show you the results.

Information:

- Branding name: L I M I T E D, Edition
- 1 small logo for the sides of the sleeves:
- 1 'big' logo for front chest.

Mostly a white font (For black t-shirt)
or a Black font style for a white t-shirt

Basically I want this style but with my text and a custom sleeve logo. Also something like the star on the chest.

Chest example

Sleeve example

This seems like a big job but if you want to see the results on a T-shirt and willing to get credit for it please hit me up.

Still need this!

Someone make my dream come true <3

You want to own a T-shirt design business, but you can't design?

YinYang - March 5, 2017, 2:22 pm

Sent you a PM mate, lmk if I can help you out

I know how to design, but there are plenty of others which are way better than me. I just know the basics and am untalented.

If someone that is talented and would love to help others by showing off his work why not?

?
