Thread: [Post A Picture Of Your Desktop RIGHT NOW!](#)

RepForums - February 14, 2017, 8:43 am

So I had the idea of asking some of you to post a screenshot of your desktop with tabs closed so it shows your icons and wallpaper, without deleting or hiding anything.

Just take a printscreen right now and post it on this thread, its kinda like "Mr. Robots" thread, "take a pic of your face & post it" but with your desktop, ive took a screenshot and posted mine at the bottom, I just thought it would be interesting to see what we all have on our desktop screen what is not hidden, so get posting and lets see! ? ? ?
