If it's less than one year it would be for me personally worth it to beat him till he is in need of hospital treatment tbh.

It's a terrible situation you're going through, but going on a raging rampage on hackforums isn't going to solve anything.

Go for a walk, get some fresh air, contemplate life and make a plan to change it for the better.

You'll get through this, just keep yourself safe and don't make any decisions you're going to regret.

These liars in your life are not worth losing your freedom over.

Now that you know the truth you're going to be better off because of it, even though it doesn't seem like it right now. ?

If it was like a year or longer, I'm not surprised. Most people who go to prison lose their girl/boy friends. This situation sucks, but I can't stand your attitude at all.

metaph0rbia - February 14, 2017, 11:45 am

Dude I know how you feel I caught my wife of 5 years (together for 10) living/fucking another dude who just got out of prison THE DAY I got out of the military. I also have a 4 y/o daughter. So I know the struggle. Best advice I can give is say fuck both of them, don't let that define you because in the end if you fuck up and go back to jail or what not, they fucken win. Fuck both of them, karma will come around one day trust me it always does. As for my wife, the dude ended up fucking around on her and he got into a bad car accident (karma is a bitch) and I'm happy here making a shit ton of money single and young.

Zeke - February 14, 2017, 12:01 pm

Been there man, been there. I know how you feel and I know it fucking sucks but I'll tell you a fact, giving time to that both of those bitches is worth no shit. Whenever you see them again, treat them like absolute shit and give no fucks. FUCK THEM, FUCK EVERYBODY. Don't beat yourself up for this shit, you know you deserve better.

I know it's hard to think of it like this whenever somebody cheats on you but FR, isn't it just super good for you? A BITCH who you thought WASNT a bitch turned out to be one, imagine if you'd have been together rn, maybe married in a few years, that would be so shitty, being married to a girl like that. You should be glad she's gone and trust me, there are so so many better chicks out there and most of them don't cheat.

Everything happens for a reason and you should be glad this happened. Two fucking toxic as shit cucks out of your life for good and this has opened doors for so many new opportunities and they'll definitely be so much better. Good luck bro <3

Dude.... fuck them. Go out, play video games... or do something thats fun for you that will get your mind off shit. That crap is NOT worth going back to jail/prison for.

Trixie1 - February 14, 2017, 3:58 pm

Man if I was in your shoes I'd probably would've killed the guy. Like literally killed him. I got an extreme temper/jealously issue (not like jealous of the dude but like if I see my girl call someone cute and he come to talk to her someones getting knocked the fuck out).

I'm very short tempered...but damn man but why the fuck were you locked up in the first place

But shit like that has never happened to me but I've had bitches play with my heart and in a way fuck me over. Like I can be talking to a girl, and think we have a thing going on literally even go on fucking dates but boom in a way sleeping with another dude (wasn't really together). Man this shit still bothers me. But hey it didn't bother me as the dude was some scrawny short moron who goes to some shit college for idiots while I'm a tall, literally 5x the size of the kid and 100x smarter that I just laughed at her dumb thot ass. Then I went and became friends with her ex-boyfriend and we just talked mad shit about her and just learned to live life.

I fucking learned to hate women. Fuck women.

Dem?n - February 14, 2017, 4:02 pm

Mr.Cat - February 14, 2017, 4:51 pm

Op just say that everything is fine and that you forgive them with a big smile... then destroy their lives and make them not come out from their houses from embarrassment. If you go to school its even easier! Be their friend and then steal all their accounts on anything find out all that they are hiding and spit out their secrets to everyone! Make friends with their enemies

If something like that happened to me I would had made their lives hell..

Most people these days don't know shit about love. All they do is fuck, go out to eat, do weird shit with each other and tell each other (and themselves) that they love them, when in all honesty they give up so easy when it comes to actually proving they love the other person and so easily to get from one person to another.

Get Pissed. Be Upset. Cry&Scream. Punch a wall if that helps. &Dont Do anythings dumb. Then Collect your thoughts and work on you.

It's going to suck and hurt for a while but stay busy improving your life and improving yourself. In a year you will look back and wonder why you ever so upset, to begin with. Trust me I spent half a year wondering how my ex-boyfriend could get involved with my ex-best friend. It was draining and consumed so much of my time, instead of me just letting it go and chasing after what I want in life.

It will get better, I promise.
