Closed for the time being. Going to work on some large improvements alongside condensing the package down into one ebook for a better price. Will include the advanced methodology and a lot more detail. People who originally got vouch copies will receive updated versions for when the new thread is live. Thank you for your time and especially for your feedback - it will be essential for me getting together my first product.

Look forward to you checking out the updated and in-depth product. Thanks guys :)

I have received a vouch of this product.

This product is BOTTOM OF THE BARREL, very simple idea that many of you have seen before, I won't sugar coat it.

Yes, this method has the ability to make money.. and yes people are doing it, it isn't necessarily "saturated" but you have to come to terms with it and expand upon it into your target audience.

Do I believe it is worth the price it is being sold for?

Simple, no. This method does not include imagination or anything, it is not "autopilot" maybe "semi autopilot" but in the end, you'll have to keep putting a lot of effort into this.

Here are my suggestions:

Buy this method if you can get him to drop the price

Buy this method if you have NEVER seen any methods before

Buy this method if you want to slow and steady start to make money.

This will not make you \$100 a day with the resources given, without a doubt, but it can make a kid who doesn't have an income a few bucks a day.. maybe \$20 MAX and only if you expanded upon the resources given.

Sorry, not going to sugar coat this.. it needs expanded upon, and if you're trying to sell it for \$20.. you need to provide more than 2 pages, and definitely more details.

I received a vouch copy and indeed this method COULD work, takes little to no time at all but you do need maybe 20 mins - 1 hour a day to keep it up.

BI?ckhat - February 15, 2017, 10:09 am

I will leave a more detailed review than the man above me when I get home and can read through it thoroughly.

I purchased premium package.

Took me 10 minutes to setup, and i think 5 minutes to daily support.

It is a legit method, easy to setup, ebook is deff noobfriendly, unique for sure and deff worth the money.

I will update future earnings, made 10\$ so far in the first hour.

The premium tutorial realy boosts your income in my opinion it is worth going premium with No doubts

Thanks for the vouch and feedback especially. All appreciated. This is my first ebook so it's really a learning experience too. Will work on improving the content of the ebook. The premium method does alleviate some of the aforementioned issues but I will work on the pricing and overall content. As mentioned in my pm, I am adding a new page for general tips and tricks to help increase your earnings and that should be in there soon. Pricing will be dropped and new content added. Thanks for feedback :)
