Spoiler ([Click to View](#))

My vector art entry in our school competition :)  
if I had a plenty of time I think I can make it more detailed :)

hope you like it :)

Id have to give it an 8.5 good job man.

**nightyishere** - February 15, 2017, 7:10 am

This looks pretty good! Im going to give it 10. :)

EDIT: Is the catchlight supposed to be like that? I mean isn't it at the wrong place in the left eye?

**handlarn** - February 15, 2017, 7:18 am

awesome details

9.7/10 rating

You used some beautiful colors. Do you have an original image you used or is this free-drawn?

My only real concern is why it's off balance. The tiger itself is even on both sides, but it's hitting the side on the right while being further away from the left. Any specific reason it wasn't centered?

Thats dope as shit bro.

How long do these pieces usually take you on average?

I know hahaha I don't have much time to fix it .. it was rushed due to the time given by the hosts :)

Solid 9/10, awesome job dude. Only flaw I can see is that the mouth, in my personal opinion, seems a little out of proportion compared to the rest of the head. I feel like it should be a tiny bit bigger. Either way that's cool as fuck. Good luck in the competition.

I don't have the original image now mate. it is traced and mirrored.

I know mate that its off balance because it was rushed due to the time given us to make one .. they only give us 2hrs to make ... so that's why :)
