B?ker - February 15, 2017, 6:31 pm

Hello,

Recently I have been extremely inactive on skype due to being busy with my Purse Ventures, after attempting to login it seems like it may of been compromised. As of right now do not deal with my Skype

MrDark.hf < is my Skype. I will create a new one here soon if anyone has me added and wants me to re-add them just pm me your Skype.

ALWAYS make me PM you when dealing off-site, I do not care how many transctions we have had.

Always use 2FA on Skype and Live account , so this never would happen .
