Thread: [Snapchat My Eyes Only](#)

Whats_Up_Doc - February 16, 2017, 12:25 am

Would there be a way to hack into someones my eyes only section in their memories on snapchat without deleting everything. If someone could help that would be great thanks. Btw i know the snapchat pw and i can get in the account i just dont know the 4 digit passcode protecting their My Eyes Only section in their memories.

I guess you'd just have to hack them in general?

Mr.Peanut - February 16, 2017, 12:35 am

You're best bet is

- Brute Force
- Knowing the linked email
- Having physical access to the phone

Thats about sum's it up.

mabye threatning the man with the phone lmao

Can you make a bot that logs into snapchat and go to my eyes only tries the five times, logs out, re-logs back in, tries the next 5 digits til it and repeats until it gets my eyes only password? Is it

possible to create that? ?

Can you make a bot that logs into snapchat and go to my eyes only tries the five times, logs out, relogs back in, tries the next 5 digits til it and repeats until it gets my eyes only password? Do you think it may be possible?

Fortunate - February 5, 2018, 9:31 pm

Brute force the code, even though it would take months, it's probably something really simple.

Having access to email also works and snapchat might be able to help you.

UpTheCrust - February 5, 2018, 10:37 pm

having the email won't help. Resetting the pin deletes everything in the my eyes only folder which I'm assuming defeats your goal. It's social engineering or bust

Positive - February 5, 2018, 10:42 pm

If someone has something in their "my eyes only" folder, it's for their eyes only. What don't you understand? ?

Toph - February 6, 2018, 10:16 am

You should ask them for their device. It's up to the other person though.

I do have access to the linked email and the phone can you show me how to do it

dhaodsk - June 9, 2022, 8:07 am

Same situation, worst is the cooldown increases after each failed attempts, changing the phone time and trying again helped in a trash account but not on my main account i am now stuck with 128 mintues and advancing time will set it to 0 minutes lefts and wont let you try to login untill you let the time synchronized with snap servers then it would let u, the features is getting improved by their must be a way around it, if you can only bypass the wait time, it would be worth going through 9999 possible combination, i have so much private memories i want to keep over the years, i hate u snapchat. i even contacted snap and told them i can prove my identity and everything and still waiting.

3157958 - June 9, 2022, 1:12 pm

agreed.

(Feb 16, 2017 01:29 AM)SIM-2830142 Wrote: [\[CITE\]](#) I guess you'd just have to hack them in general?

brute force imo is the only way.

you should probably just leave them alone tho :-/

arjun158 - July 23, 2022, 1:44 pm

Snapchat can't help you with this even if you are the real owner of the account. It's encrypted for a reason. There used to be some people out there who claimed they had an exploit, but for now the only method is guessing (birthday, birth year, last 4 of phone number, etc)

daniel123 - August 13, 2022, 7:45 am

Wow its so easy to hack those things. I wasn't aware

Yes, I agree with this. These are your best options.

solution - August 21, 2022, 5:58 am

Brute force should help you
