Thread: [Any PHP / SQL back end devs around?](#)

Syphonite - February 16, 2017, 2:29 pm

I need to ask a few questions regarding one of my assessments / taking source code and stripping it down to what i need. Feel free to hit me up on skype: diizane.hf

There's even a dedicated PHP forum, who knew!

Feel free to ask the question in thread, if it's basic I can help.

Did you post in the PHP forum? You'll get better results there

Yes I am here, What do you need?

Why not just post the question here? You'd get more and better answers if more people saw it - most of us just can't be bothered to pm anyone cause that's not the point of a forum.
