I would like to enter this contest for 3p1c. I don't know if I deserve to win but if I did it would mean a lot to me. Thank you for hosting this giveaway, RaZoR and good luck to everyone!?

I'm not sure whether you will see me as worthy, but I would really appreciate having this. I have tried helping people wherever I can on here, recently helped someone within the PI section. I also feel like being upgraded would motivate me to post more and always try to be as HQ as possible.

Thanks a lot for doing this contest man, really appreciated. Good luck to everyone entering and I hope it goes to the right person.

Edit: I have been trying to help as many people as I can lately by answering their questions and giving them useful resources.

I'd like 3P1C. I don't think I deserve it at least but I try to be as helpful and productive here as possible; thank you for hosting the giveaway, nevertheless.

I would love to be upgraded to Epic as the features that follow that upgrade would be indeed useful to me. Currently I am sitting at 97% Inbox space, and I would rather not delete potentially important messages that I might need in the future.

I think I have been good help to a lot of members in particular sections and I strive to continue contributing to this great forum.

Good luck you all and thank you for hosting this Contest.

I have been on HF since 2011!, recently hit the 1,000 posts mark and I think a great gift would be if I could be upgraded!

Since my time here I have yet to win any sort of giveaway lol, this would be great thanks RaZoR :D

Graphica - February 17, 2017, 7:11 am

I would love if you can upgrade me because there are few things you can do when upgrade in which I need my inbox sometimes gets full very quick. I've try to help the community as much as possible and I respect all user. I have also been helping user by wearing their signature and also been creating user some thread design/signature as that's the only thing I can do and I hope I'm worthy enough to be upgraded thank you for this amazing giveaway and good luck to all

Top Potato - February 17, 2017, 10:36 am

Well, I just signed up but i've already helped some people on this site, and I truly hope you can help me get L33T so I can do more for this community that I am able to right now.

Thanks for offering this in any case, OP.

Posting to enter for 3P1C. I'm sick of receiving the countdown before posting on another thread. I think I deserve it because I have contributed a lot to the community (check my threads in the free services and giveaways section). I am also very active and help users when I'm online.

`RaZoR - February 17, 2017, 8:48 pm

Thanks for joining with the contest guys. hope more people will join with the contest

phunted - February 17, 2017, 8:53 pm

I'd like to be upgraded to epic so I can have a large PM space, I'm constantly getting alot of messages regarding EW help.

Thanks for the contest.

The Poseidon - February 17, 2017, 9:37 pm

If this is still available, would love to take ub3r up for grabs - have hosted giveaways like you have before and HackForums has turned into a regular thing for me now and I believe ub3r will be the last stage before giving something big back to the community, if you check my threads I have given plenty of U.K AGC out to the community and I do love it when giveaways like these are handed out because it makes me want to do more kind gestures for the community.

Thank you for hosting this regardless if I get the upgrade or if I don't, you're a very kind person.

Instill - February 17, 2017, 9:39 pm

Although I do not need anything from the giveaway, just wanted to say thanks for hosting the giveaway for the community! :)

Good luck to all who enter.

`RaZoR - February 18, 2017, 4:55 am

hobble - February 18, 2017, 5:41 am

i'd like to enter for l33t :) thanks man

Micheal2 - February 18, 2017, 5:46 am

I would like to get upgraded to 3pic sir, and Thanks for the giveaway.

Yakama - February 18, 2017, 5:48 am

I'd love to be upgraded to L33T.

I've tried to give to the community of HF as much as I can and tried to be a little business man I guess you can say for an ebook. But one reason why I would like an upgrade to L33T is that it would help me stand out more and I would love to be able to show people that I appreciate their help or support with some rep instead of leaving them without anything when something does happen. But yeah I really don't have nothing else much to say but thanks for this chance OP and good luck to the winner of this upgrade.

winner is Crystallize.
