Thread: [Where should I sticky my thread? Premium sellers section = full. Stock market Mentor](#)

Wolf of Wall Street - February 17, 2017, 11:44 pm

Trying to figure my best option to have the most people view my thread for mentoring and partnering up with HF users to flip merchant stocks for extreme profits.

I am only selling 15 spots so i think 2 weeks with a sticky may do the trick.

The thread:

I Pm'd Omni and the premium sellers section looks booked, Anyone have any idea where I would get the most luck and views, as I am not familiar with stickies.

Thank you for your time!?

Service Offerings or Secondary Sellers may be your best option

def service offering,

secondary is also full of bs things (ik u meant by full booked for stickies, but thats a very bad section to offer your service)

I agree with the Secondary market, make it your last option as it's usually full of annoying members and not many upgraded members which I am guessing is your market (They usually have a bit more cash)

I wouldn't bother using service offerings. You can do get some sales there ?

My guess is no one will care (or too few) outside the stock section.

Also happens to be the cheapest option

Secondary Sellers Section would probably be your best bet bud.

Thank you guys for the suggestions, I think I am going to go with secondary sellers for a week.

Much appreciated.
