Thread: [Bustabit No Lose Method / Not Gambling / \\$500 / Just Pay \\$250 Today 3 Copys Only](#)

Black Shadow - February 18, 2017, 1:08 pm

THIS HAS NOTHING TO DO WITH GAMBLING OR MY PAST ACCOUNTS.
ANYONE SALES TRASHING WILL BE NEGGED

This is not like any other method I have sold I only discovered this last week.

I have found a flaw in the game were you cant lose and is fully autopilot

Yes it is is expensive but you will never find anything else like this and there is no gambling.

You will earn around \$50 every 24 hours, this is not a lot but it is constant.

You will need an investment of \$250 for this to work and the more you invest the more you will make.

I will not be giving any vouch copy's out and I want \$250 upfront and the other \$250 as you make

I will prove within the first 10 minutes over Skype how this works and a full refund will be given if you prove me wrong.

Requirements

- Must be an upgraded member
- Must have no bad neg reps (I have to trust who I give this to)
- Must pay me \$250 upfront
- Must agree to pay the other \$250 once earning
- Must have \$250 to invest
- Only 3 copy's will be sold

Send me a PM if you are interested

DO NOT PM ME ASKING CAN I GIVE OUT AND PAY LATER THE ANSWER IS NO!

Copy 1 SOLD

Copy 2 SOLD

Copy 3 SOLD

This is awesome!

I found a gambling exploit as well, but it's for a slot machine in MGM National Harbor. Willing to accept investments and gamble live with results. It's fucking amazing the result am able to get.

Yin Yang - February 18, 2017, 1:23 pm

How do you claim that this isn't a gambling method when it's on bustabit lol?

So no need to gamble just watch the cash flow in.

Okay so you found a flaw, great! Please post the account you used this "flaw" on. The graph should have 0 losses and be all green right? Show this to me and I'll buy it right now, cause I bet you can't.

Exactly, you won't show me the account. Not because I'll figure out how it works, but because you have not found a flaw. All the account would show me according to your flaw is 0 losses, an all green graph, and what number you're cashing out on.

Impervious. - February 18, 2017, 3:04 pm

He junked his last salestread, a thread where his sales hit rock bottom.

So, since i can't copy paste my reply, I'll attempt to state what I stated on his other thread.
Bare in mind this junking only proves my point even more.

The method(s) he sells are all simply different cashouts and multipliers used, in the end being a martingale method. He does not understand what probability is. (Literally, he does not.)

There is no such thing as an exploit on bustabit, BS is trying to recover his losses here as you can see almost all of his accounts posted.

Only 2 of his accounts are positive, this was not with a magical script or exploit. He has placed high manual bets and won, but hasn't played on them afterwards so he could 'have proof' of showing he does win money.

All in all he has lost over 2BTC in pure losses. If you buy this method, you follow his footsteps.
Guaranteeing you lose your money.

I really hope noone does buy this as you will feel scammed by a big number of rep. Noone should be able to get away with this.

Do note, these are facts. No salestrashing. Backtrack in past threads (he hasn't junked all, only like 70+% of them. lol.)

Nonononon, it's \$500 for the copy, 50% upfront, then 50% later (when you make the money from epiccccc method)' but the method requitpres \$300 investment, which is why 10 is \$3000 (300*10)

It's a \$250 investment as he mentioned in the OP, not \$300, so it should've been \$2500. He might've said \$3000 because of the \$500 method price as well, but why would he count that for himself?

There's a big difference between a little flaming/roasting and blatantly threatening someone imo. He surely crossed that line.

You won't even post full proof of a bitcoin address to see your earnings or even an account, Not sure how finding an exploit would prevent you from taking a screenshot, seems a bit.. Well weird if you ask me.

Like many other people have said, you wouldn't be doing this if you actually were making good money, you'd keep it to yourself just like anyone, I know for sure I would.

Sorry I refuse to speak to noobs who think they can outwit me.

I have been here 7 years longer than you, and dealt with hate for years.

You are nothing but shit on the sole of my shoe.

As the one who cracked the code you must be perfectly capable of giving us mere numbers in this grand scheme of things, right?

I am going to find a way to show you an accounts takings in a day, without showing you the actual account.

There are going to be a lot of gutted members here who wished they had purchased this from me, when I show the results in the future.

While I am sitting back doing nothing and watching the cash flow in.

You mean you wanna leave the thread open because nobody actually bought all 3 of the copies you're just a repulsive lying fuck instead who's extremely desperate for money that he has to lie and manipulate newcomers on HF.

You only have a go at me to get all your followers to give you a +rep.

Your a fucking nonce!

So let me get this right. Blackshadow has found a loophole within the mathematical provably fair equation of bustabit?

Yes you got it right.

Blackshadow do you mind providing us any proof and the proof of the first sale such as the bitcoin txid?

Yes, exactly.

Taking into consideration that he invented and patented ultra profitable methods such as 'double your stake after a loss' or 'cashout at 1.01 only' we don't have any rights to doubt him at all.

All copies have been sold so why not close this thread?

It tells me something about him, it's weird..

He's not giving proof of a method he's claiming to work 100%, just like his others.

He's not letting us know who "bought" it.

Also keeping the thread open so people like us can post on it and let it grow so new members think it's real.

The thing is, minimalist said it is his final thread.
he will "sell" all his copies and start a new one probably, considering this one is 'finished'.

Black Shadow - February 20, 2017, 4:52 am

Yes time to close this thread now all sales are done.
