Thread: [Project Ownership VenomLogger](#)

Kicking - February 19, 2017, 4:23 pm

I am selling Project ownership of VenomLogger because I simply do not have time to manage a project right now. Between me moving houses and a full time job. It's something I really did not think about until I actually started this.

Project is written in the NET framework, so you will need to be fluent in the programming and/or have a developer able to modify the source to tailor as needed.

Here is the current sales thread;

<https://hackforums.net/showthread.php?tid=5537767>

What you will get;

1. Project Source + Ownership
2. Help setting it up for sales
3. Domain venomlogger.com
4. All graphics for threads and website

BIN: \$500 BTC

C/Bid: \$300

@OP, if you want this to be an auction, perhaps you could have it moved to the appropriate subforum.

Never stated it was an auction, but an offer is an offer.
