**Mr.Peanut** - February 19, 2017, 6:40 pm

I'm giving \$10 BTC to the person who can show me the best mobile site. I'm looking for a mobile site that looks:

- modern
- edgy
- colorful
- anything that makes you say wow

Feel free to post below and/or PM me if you'd like..

GL everyone

Edit: You can make as MANY entries as you'd like

I know it is not a mobile site, but this is without a doubt the best visual design I have ever seen.

NYTimes has the best mobile website IMO. Simple and it loads quickly, despite having a buttload of content.
