Thread: [FREE TOOLS DOWNLOAD LINK @the.red.team](#)

the.red.team - February 20, 2017, 6:34 am

Cannot post links yet so the best I can do is give you my instagram (@the.red.team). The link to which I am referring is in the bio of my instagram page.

This is the link to multiple tools including:

- Ransomware setup tool
- RAT setup tool
- Port scanners
- 802.11 exploit tools
- Dictionary file generator
- UDP flooder
- C++ Multi-tool
- DLL injectors
- Annoying little malware

ALL OF THESE TOOLS ARE FREE

PICTURES OF A LOT OF THESE CAN BE FOUND ON MY INSTAGRAM @the.red.team

?

we are aware this is a nearly decade old post yes? First, the IG doesn't seem to exist anymore, second, like the others said, probably a backdoor in there. Dude probably just either had a redirect chain to a kit on the link or a S3 bucket off whatever the executables are to DL a payload.

Good thing it's not there anymore tho lmao
