Thread: [Any good crypters for DarkComet 5.3.1 / any better RAT than DarkComet](#)

NuLz0 - February 20, 2017, 9:04 am

I tried looking for good crypters for DarkComet but all I found was Illuminati crypter, dead threads and viruses. If anyone has a better alternative than Illuminati crypter or a better RAT than DarkComet, please post it here or pm me.

Thanks to anyone who replies

(p.s: If I should learn any language to code on myself, wich one should I use?)

Just look at the Cryptography section, I'm sure you'll find something that you're looking for there.

Stashyy - February 20, 2017, 9:07 am

People still using darkcomet.. lol

Dark comet is the best rat man.

CanadianBacon - February 20, 2017, 12:41 pm

aint gonna lie, dark comet is pretty old but if its all you need then its a good choice of rat.

as in crypter i would recommend any that have good runtime detection rate and self injecting.

DC is outdated and really bad.

Would recommend that you either find a better free rat.

Don't use Dark Comet, it's remotely exploitable.

Codefuser - February 21, 2017, 8:09 pm

Illuminati Crypter is long gone due to Fade's idiocy.

Get Static Crypter, and use Babylon.

Clova - February 21, 2017, 8:13 pm

Quasar RAT is what i've been using for a bit

TR/Dropper.Gen5 - February 22, 2017, 5:18 am

Better Dont use darkcomet.....

zalm - February 22, 2017, 8:35 am

You can use darkcomet if the crypter is properly coded, it's not a problem.

kevy42 - February 22, 2017, 8:43 am

why dont ya listen on port 4555, send me a link to ur server and leave ur PC idle :), see how long it takes for me to drop a shell. XD jk, but in all sysness, dont use DC, its vulnereble as all hell, and unstable

mhm, even if the crypter did matter, reverceing a HF crypter isnt rocket seince

PhantomCod3R - February 22, 2017, 12:49 pm

you can use NJRat darkcomet its hard to crpyting

Njrat is really bad, use Quasar if you need to use a free rat.

Why is darkcomet hard to crypt?

Vitani - February 22, 2017, 1:09 pm

I invite you to try out my crypter. I can guarentee you that it will have better runtime results then most if not all other crypters on HF with DC.

^ Spartan is coded a by good dev

PhantomCod3R - February 23, 2017, 12:43 pm

download moreone rat and when you get slaves in any other rat move them to darkcomet
cuz darkcomet difficult to crypt

White1233 - March 3, 2017, 7:16 am

Dont use Dark Comet, its very outdated. I recommend BabylonRAT & Static Crypter.

Have a nice day. ?

FFS this thread is almost 3 years old... What the hell did you even search to find this and why?

DarkComet is old, there is a lot better RAT's out there...
