Thread: [\[FREE\] Remote Administration Tool Installs](#)

Nivettez - February 21, 2017, 8:58 am

So as the title might suggest..

I am going to offer 3 Free installs for anyone that needs them.

The installs will be world-wide, you can use them for testing purposes or at your own will. The stub has to be crypted in order to be executed succesfully on my client.

Limited amount of installs avaiable, for those of you who don't have a crypter but also want to try-out this feature, I can do a crypting service for your stub but this is a paid service.

Good luck!

If eligible (Upgraded membership) send the direct download link in a PM. Crypt it beforehand.

SeForm - February 21, 2017, 9:09 am

Which RAT? I'm interested.

Nivettez - February 21, 2017, 9:19 am

Any rat that isn't java based.

Reyyzan - February 21, 2017, 10:06 am

Interested in this, waiting for your answer

Wespa - February 21, 2017, 10:10 am

Posting to come back later, in like 5 minutes. Ill get my shit ready.

?Synapse - February 21, 2017, 10:18 am

Be careful, there have been plenty of services similar to this and most of them ended up being honeypots. You have been warned.

He is right, deal with caution.

>This is just for testing purposes, whoever wants them gets em, I preffer giving them our rather then dying or eating my client's resources.

hacko7 - February 21, 2017, 2:40 pm

Can i have it ? Thanks for sharing !

Nivettez - February 22, 2017, 2:29 am

@hacko7

Just send the direct download link in a PM.

Nivettez - February 23, 2017, 9:25 am

This is still available for those of you who wants to grab this!

jimmyboob - *October 1, 2017, 10:08 am*

hi and thank you for it
it looks very good.
