Thread: [HackForums asking for human verification non-stop?](#)

? THEINsPIREDONE - February 22, 2017, 10:15 am

Hello, I logged into HF about an hour ago, and since then I've been having this annoying human-verification reCAPTCHA thing pop up every 2-3 minutes.

Any of you having such a problem today or is it just on my side? Any ideas what might be happening?

-edit-

Sometimes I'm getting this message

<https://gyazo.com/caff31fb851fd9762312a31b115fabe0>

Sickness - February 22, 2017, 10:16 am

On your mobile phone? Just accept one time and then select another site of hf like help button.

SoulZeh - February 22, 2017, 10:18 am

Well, It seems pretty self explanatory? Stop using outer space wifi signals to connect to hackforums. Clearly you're not human.

Moon - February 22, 2017, 10:18 am

It's working fine here. But yeah sometimes they can be annoying..

? THEINsPIREDONE - February 22, 2017, 10:20 am

My God, it literally just asked me for a verification while I was verifying another reCAPTCHA, dafuq.

@Sickness I'm connected through home network WiFi using my laptop, as always. This is annoying
-.-

Skurt - February 22, 2017, 10:21 am

Its just you and you're probably triggering the firewall somehow.

(Feb 22, 2017 11:21 AM)Crazzy Wrote: [\[CITE\]](#) If you are spoofing your browser agent with umatrix or something you will have to re-do the captchas.

If I'm what? ?

I'm also getting this message sometimes, any ideas?

Exquisite. - February 22, 2017, 10:31 am

You using a VPN or something?

? THEINsPIREDONE - February 22, 2017, 10:35 am

Nah, Im pretty sure you can't access HF with a VPN. Pure WiFi connection, and that's happening

only on my laptop. It doesn't happen on my phone.

Numinous - February 22, 2017, 10:35 am

Yea even i'm also facing same issue here in my system with no proxy/vpn

Bluffer - February 22, 2017, 10:53 am

Only had one recaptcha popup yesterday and it was when I was replying to a thread including code in it. I've never had recaptcha popup on here other than that as far as I can remember.

Arrogance - February 22, 2017, 11:01 am

I'm experiencing the same issues and it almost got to a point where I had to do 1 captcha per every page (1 click).

RCE - February 22, 2017, 11:04 am

try to reset ur browser data include cookies,cache,..etc then try again

Sickness - February 22, 2017, 11:41 am

Im having right now the same problem like you, is annoying

Omniscient - February 22, 2017, 11:49 am

Yeah, try that. You likely have an issue with cookies or cache. Try another browser too.

? THEINsPIREDONE - February 22, 2017, 12:02 pm

I cleared my cache, but it kept going. However, I haven't had any human verification request for the past 35 minutes. Still using my laptop and Google Chrome. Not quite sure what was it, but it stopped for the time being.

Anubis - February 22, 2017, 12:13 pm

Yeah same. Could someone please take his cat/dog paw and pass the "human verification" with paw and post a video?

You can then report it as a security issue.

Arrogance - February 22, 2017, 12:26 pm

Running into this issue every 30 seconds.

????s? - February 22, 2017, 12:26 pm

Because ur a fucking robot bitch.

? THEINsPIREDONE - February 22, 2017, 12:36 pm

Can you not keep a fucking secret? Shhhh

Anubis - February 22, 2017, 12:37 pm

Yeah this happens to often. Every time I refresh the page after few minutes.

Patzan - February 22, 2017, 2:29 pm

Starting happen to me too.

On PC about every hour, on mobile every 5 mins.

? THEINsPIREDONE - February 22, 2017, 5:33 pm

It's been about 5 hours and I hadn't had any of those annoying reCAPTCHA things. Probably fixed?
