Kinda messy, I recommend this tutorial <https://www.codeproject.com/articles/2400/tic-tac-toe-in-c>
Beginner friendly and he does it in a better way

One of my very first java projects was Tic Tac Toe.

Small world.

Tic Tac Toe should be everyones first project.

I think the first time I ever coded a Tic Tac Toe game was in Actionscript 3.0

That was so many years ago lmao. If you're new to coding then you didn't do a bad job at all :) nice work.

Consider using a VisualStudio .gitignore.
