Xycon - May 6, 2017, 6:06 pm

I appreciate the effort and all ... but wtf?
Are people to stupid to Google "wallpaper" now?

The images in the first post aren't even that HQ ... if most people were to use them they would turn all blocky as they get stretched out to cover a desktop ... since its not even in HD resolution

they're just screenshots taken with gyazo so i can post examples on hf threads
why the hate?
the wallpapers, as all my threads currently active, are 1080p full HD resolution
they wont stretch at all

Xycon - May 6, 2017, 6:12 pm

They would still stretch for people with an UHD screen.

No hate ... just wondering why people cant do such a simple thing themselves ...I mean they would

obviously have more than 45 choices if they did.

Therefor his thread seems kind of pointless, to me anyways.

the majority of hf users come to hf to get things as easily as they can
why google when it's here anyway you know... i have multiple other threads where they can get other HD wallpapers as well.

and i will venture to say most screens aren't UHD you know. but w/e, those who have received have enjoyed and that's rele what matters

but you are correct that any search engine can provide obvious abundance in wallpapers, screen savers, desktop images, etc

Industry - May 6, 2017, 6:24 pm

Why don't you just upload the image album to imgur and post the link for everybody to enjoy? I'd rather not dl a zipped folder for some images...

I say this because the images are dope, also.

It's not a bad idea.

Would you rather I link you to imgur? As in, you personally?

I don't want to do that for every user for various reasons but I don't mind doing it for you since you more or less asked.

I can guess what those various reason are, but I would rather not say. And I still believe you should upload and link the album for everyone to have.

I feel it's important for users to provide feedback for such threads.

HF doesn't allow post/pm and so I don't force that but 9/10 hf users act like kids in that they will see an active link and never say a single thing; just grab n go, you know!?

mrphp - May 6, 2017, 9:28 pm

Hey, could you link me these OP? I've got a particular purpose in mind.

Well, I guess it's up to you then. I'm just stating what I think is the best way to go about giving these away.

Have a good day,
