Mind u setupping a API for BOTS? I want to implement more on mine.

cuidabrutos - February 24, 2017, 9:59 am

Of course, we already talked about skype, the apis will cost 2 USD with all the things that the web has

Does not work for you Skype resolve now is in maintenance, but tomorrow may already be, while testing all the tools, I hope you like it

Young Sosa - February 28, 2017, 9:05 am
The skype resolver doesn't work but that's because Skype improved their security, now it's hard to grab an IP also with wireshark.
Good and useful website at all.
