Hey bro appreciate you doing this giveaway! :)

Hydraxus - February 24, 2017, 8:34 am

Ah yes, typical Regulus helping out users who need it the most with his hard earned money. Talked in Discord with him, really a great person... I wish whoever wins the best of luck with their new upgrade, don't let him down!

This is generous of you. I am a pretty quality person. That means, I have ethics and morals that reflect me as an individual that most sentient beings would regard as 'good'. I don't partake in activities that would impose harm to other individuals. On this forum, I wish to note that I will exhibit thoughtful posts which will ultimately benefit the community as a whole. I hope that my presence and posts are ones that spreads an optimistic and genuinely kind demeanor to members who cohabitate this online message board. By no means will I ever abuse any privileges that arrive with an upgrade. I was hoping you would upgrade me not for a merely selfish reason, but perhaps allowing an opportunity for the rest of the community to come to terms that certain posts I might make may contradict with their opinions, but that in itself is not an act that reflects some deviant nature of my identity.

My post was dry, but I do appreciate this contest as I do not see myself applying for another. You seem like a fair judge of character which is why I bothered to make an entry.

Noob question here, but isn't EP1C lower than L33T? (It's cheaper and lists fewer features) If so, why do you WANT EP1C?

Imkasumidloke - February 24, 2017, 10:45 pm

I'm already upgraded but this seems like a nice thing that you are doing, I wish you the best :)
