Just wanted to give a quick update because of some changes.
Prices are still the same and the currencies are still the same. Will be changing the thread design for the new currencies later!

Tiny update for everyone.
If you have a US Phone # to let me start the dox off with, I can complete it within 30 minutes - 2 hours.
Just a huge reminder!

Don't trust this guy lmao. Scammer. Took 2 months to respond after I sent the payment and he just says "Had some internet issues and some other orders to do".

1, quit sales trashing.
You should know better.

2, you literally could ask for a refund and I would of refunded it.

3, you even told me you cancelled the order and then you keep messaging me after cancelling it?

4, I did have internet problems and literally had to pause all orders until my internet was upgraded and resolved.

5, I get 10 - 20 customers a day, hope you realize your order was just in line and was in the process of being completed until you started thinking I was scamming for \$10. You never once asked for a refund when I provide them and pretty public about doing so.

Take your sales trashing somewhere else.

LordNextossal - January 3, 2019, 5:22 pm

Are you still offering this service?

RumbleFrog - January 4, 2019, 1:43 am

What information do you need for this service? Is it possible with just a social media handle?

oRequiem - January 4, 2019, 7:34 am

(Jan 4, 2019 02:43 AM)RumbleFrog Wrote: [\[CITE\]](#) What information do you need for this service? Is it possible with just a social media handle?

It's possible, just as long as the handle isn't a throwaway.

oRequiem - January 8, 2019, 12:40 am

UPDATE: I know I haven't really made updates on this service, but this is very important.

Months ago I decided to not include database entries for specific/legal reasons.

Most of my orders never required database entries anyways so it is no longer available in this service. Thank you for understanding and will be updating the thread design soon so you all don't get misled!

lexususa - January 8, 2019, 11:02 am

Think you could find the address of one of my school administrators? I've already tried basic methods of searching so it'd be kinda tricky to find out.

edit: thanks for the quick reply

I made an update about passwords/database entries.

They will be "Possible" passwords if I even find any. This is not an account jacking service so passwords are not a priority.
