Thread: [Where to get .gov and .edu backlinks?](#)

Green_Man - February 24, 2017, 4:00 pm

Hi,

My website currently is ranking on 2nd page of google. I have no backlinks and urgently need some. Could any suggest somewhere to buy .gov and .edu backlinks, please? Thanks.

her0. - February 25, 2017, 4:49 pm

Look at other peoples backlink profiles, you'd be able to see what .edu/.gov links they have and just register an account on x site.

Those are usually private sources and hard to find on your own. However there are people selling this kind of backlinks. You can find some on Fiverr & SEOClerks.

I'll keep that in mind. Could you tell me where to find these people selling them?

Seems like you've quoted my post before I edited it.

SEOClerks and Fiverr have sellers selling this kind of backlinks, feel free to look around them.

SEOClerks and Fiverr.... Great place if you want your website to be spammed out of Google :P
I would check your top 5 competitors and try replicate as many of their backlinks as possible.

buy the .edu .gov website from a domain auction site. register it to an alias, link to your other site

this is a terrible idea, don't buy backlinks from those sources.

King Rust - April 22, 2017, 10:29 am

Yeah, try not to purchase SEO from Fiverr or SEOClerks, usually really LQ

You can't register .edu or .gov.

Fiverr and SEOClerks are both horrible. If anything use konker and get a few pbn links pointing to a parasite page.
