Packages

How it works: You discord me, state what you want to buy, then you send the money to my paypal, I login to your social club account add the money and ranks and whatever. (This usually takes 2 minutes)

WARNING: In order for me to give you the recoveries, I have to log into your social club. I can not just join your lobby and money drop, that is detected, it has been detected since 1.24, even "safe money drop" is detected. This means that you will need to give me your social club email and password in order for me to change your stats.

Im well known on V3rmillion.... FeedMyChildrenNOW. Do you want me to make a video on the recovery process?

Also, why the fuck would you think that i would take the time to customize this entire thread if i was gonna lie like a cunt?

I would suggest that you host free lobbies first instead of directly going for paid ones. Make a discord channel, invite people there. When they see that you're legit then start getting paid drops!
